ENEMY IS FIRMLY HELD BY DEFENDING ARMIES

FRENCH ARTILLERY CUTS DOWN FORCE READY TO ATTACK

German Attempt in Neighborhood of Courcelles and Mery Foiled by Concentrated Fire of Guns—Troops Intended for Assault Retreat With Great Losses.

OTHER ENEMY FORCES HURLED ACROSS MATZ

Enemy Makes Further Great Efforts, With Little Gain, in Villers Cotterets Region—Americans Check Heavy Attacks to South—Successful Raids Made in Flanders.

PARIS, June 13.—A concentrated fire from the French guns caught powerful German forces attempting a counter-attack between Courcelles and Mery, and not only drove back the advancing waves, but inflicted very heavy losses, according to the War Office tonight.

The Germans gained a footing in the village of La Versine, between the Aisne river and the forest of Villers Cotterets, but other attempts in this region failed. The statement follows:

Cut Down by Artillery Fire

"During the course of the day the Germans, launching a powerful counter-attack from Courcelles to the north of Mery (Montdidier sector) were caught under the fire of our guns, and the assaulting troops were not able to reach our positions, but were obliged to retreat to their line of departure after having suffered very heavy losses.

"The material captured in our attacks of June 11 included ten cannon, four of them heavy pieces, and a very large number of machine guns.

"Between the Oise and the Aisne the day was calm.

"On the Aisne, the enemy continued his thrust between the Aisne and the forest of Villers Cotterets. He was repulsed at the majority of points, but succeeded in gaining a foothold in the village of La Versine. All attempts to debouch from Coeuvres and to advance west of Vertefeuille completely failed. The enemy was not able to renew his attacks.

"In the afternoon, near Courcy, the enemy, who had penetrated our lines momentarily, was driven out, and we established our positions again in their entirety.

"The artillery fighting was quite spirited in the region of the Ourcq River, near Camplat and at Pompelle. Quiet prevailed on the rest of the front."

Driven Back Across Matz

The text of the day statement reads:

"During last night the Germans did not renew their attacks between Montdidier and the region of Antheuil. The French troops are consolidating their positions there. On the right wing of this battlefield the French by a counter-attack hurled the enemy back to the north bank of the Matz River.

"East of the Oise the French have occupied their new positions on the heights of Croix Ricard and Melicocq.

"Hundreds of prisoners and many machine guns remained in the hands of the French.

"Violent combats continued between the Aisne River and Villers Cotterets. The Germans have made progress as far as the ravine east of La Versine.

"After violent fighting the enemy has obtained a foothold in Coeuvres and St. Pierre-Aigle.

"The Germans made a violent attack on the front between Boureaches and Belleau Wood. American troops broke up the attack, and inflicted serious losses on the enemy, holding to all the gains which they had made."

Allies Succeed in Raids

LONDON, June 13.—Field Marshal Haig's report from British headquarters in France tonight says:

"In a successful minor operation carried out by us last night in the neighborhood of Merris, we captured forty-eight prisoners, six machine guns and trench mortars.

"Except for normal activity on both sides in different sectors there is nothing further to report."

'A successful daylight raid was carried out by us yesterday southeast of Arras," says today's early war report. "Heavy casualties were inflicted upon the enemy. One hostile trench mortar was brought back to our lines and two others were destroyed. During the night local operations were undertaken by us successfully southwest of Merris and east of Dickebusch Lake.

"In the former sector our line has been advanced a short distance with little cost, and a number of prisoners taken. In the latter area the French troops improved their positions in the neighborhood of the Ridge Wood and captured thirty prisoners."

Americans Repulse Attacks

WASHINGTON, June 13—Complete repulse of heavy enemy attacks northwest of Chateau Thierry, with heavy losses for the Germans, was reported tonight in General Pershing's communique. The American lines, advanced yesterday by taking the last of the German positions in Belleau wood, remained intact.

Successful bombing of the railroad station at Dommary, Baroncourt, by American aviators, all of whom returned, also was reported

German Report

BERLIN, June 13.—The official statement says:

"Army group of the Crown Prince Rupprecht: The artillery fire revived intermittently. There have been local infantry engagements.

"Army of the German Crown Prince: Southwest of Noyon the French launched determined counter-attacks in strength on both sides of the high road between Roye and Estrees St. Denis. These onslaughts broke down with the heaviest losses.

"More than sixty armored cars are lying shot to pieces on the battlefield. The number of prisoners has increased to over 15,000. The booty in guns amounts to 150, so far as can at present be ascertained. In warding off the enemy's counter-attacks, some of our guns, which were advanced as far as the front infantry lines, fell into the enemy's hands.

"North of the Aisne shock detachments penetrated the enemy's trenches. South of the Aisne, after strong artillery preparation we attacked the enemy and threw him out of his lines east of Cutry and Dommiers and drove him back beyond these places. North of the Ourcq River, the Savieres region was cleared of the enemy.

"Repeated enemy attacks northwest of Chateau Thierry broke down with heavy losses.

"In the last two days 35 enemy machines have been shot down. Captain Berthold and Lieutenant Menkoff obtained their thirty-third aerial victory, First Lieutenant Schleich his 29th and 30th, Lieutenant Veltjens his 20th and 21st, and Captain Reinhardt his 20th."

The evening official statement from general headquarters says:

"On the fighting fronts the position is unchanged. There have been local engagements south of Ypres, southwest of Noyon and south of the Aisne."

Italian Front

ROME, June 13.—The official report from Italian headquarters today says: "In the Tonalea area, the Bosia-Astico sector and the sector between the Brenta and the Piave, the artillery fighting was more intense at intervals. The bad weather limited the activity of reconnaissance parties and aviators."

SUBMARINE SINKS BRITISH VESSEL

LONDON, June 13.—A British boarding vessel was sunk by a Teuton submarine on June 5, according to an official statement issued tonight by the Admiralty.

Seven British sailors are missing.

U. S. Soldiers Decorated

WITH THE AMERICAN ARMY IN FRANCE, (Wednesday), June 12.—One hundred and eight American soldiers, belonging to organizations now fighting on the Toul front, were decorated with the Cross of War Tuesday afternoon. The decoration was awarded for bravery and fidelity.

WILL DECLARE NEW DANGER ZONE

Farcical Announcement Comes From Berlin in Regard to Waters Off Coast of United States.

LONDON, June 13.—The German Admiralty intends to declare the Eastern coast of the United States from Mexico to Canadian waters a danger zone, and will warn neutral shipping, says a dispatch to the Exchange Telegraph Co. from Amsterdam, quoting reports received from Berlin.

WASHINGTON, June 13.—In view of what has been happening during the past few weeks, officials here tonight were inclined to regard as a bit of grim humor the report from Berlin, via Holland, that the German Government is about to declare the eastern American coast a danger zone and to warn neutral shipping of its purpose.

Raiding submarines have already served warning of the danger in more forceful terms than Berlin could formulate in a diplomatic communication. Several of the eighteen vessels sunk by the raiders were neutrals, carrying no war supplies. Neutral governments are not likely to have overlooked that fact, warning or no warning. It is recognized, however, that the forthcoming "warning" may prove to be a formal announcement of a zone in American waters where ruthless sinking of all ships is to be the order of the day, forecasting a continuing menace off Atlantic ports through regular submarine patrols.

Officials here have been fully awake to the fact that such patrols could be maintained if the German authorities thought the results obtained justified diverting a large number of boats from operations off the French and British coasts. It has been figured out that by starting a new raider or flotilla of raiders every five days, one link in the endless chain of U-boats would always be on duty in American waters.

Such operations would mean that for every boat actively engaged on this side, there would be several on the way over and several more on the way back to Germany, none of which would have any substantial value while en route in either direction.

On this account Navy officials have discounted the patrol idea, believing that much better results from the German standpoint would be obtainable by using the same number of boats where they are now used, in the North Sea or adjacent waters.

Airmen's Squadrons Extend Activities

British Fliers in One Day Destroy Twenty Enemy Machines and Send Two Down Out of Control—French Bring Down Seven and Put Nine Out of Action — Bombing Raids.

LONDON, June 13.—The official statement on aerial operations issued tonight says:

"Our flying squadrons on the French battle front Wednesday destroyed fifteen enemy airplanes. One of our machines on this sector is missing.

"On the British front we lost two machines and destroyed five German machines. Two other hostile machines were driveen down out of control, while a German observation balloon was brought down in flames.

Many Bombing Raids

"Twenty-two tons of bombs were dropped by us during the day, the principal targets attacked being the Don junction, railways at Courtral, Armentieres and Chaulnes, a dump at Bapaume and the Bruges docks.

"Yesterday two successful raids were carried out by our squadrons against the Metz-Sablons railway station and sidings. Many heavy bombs were dropped. On Thursday one squadron of our airplanes attacked the station at Treves, another dropped a ton of bombs on factories and the station at Dillingen. At the same time factories and the station at Hagendangen were subjected to an attack. At Dillingen direct hits were observed on two furnaces. Successful long distance photographic reconnaissances were carried out by other machines.

"In the course of attacks made by the enemy on our bombing machines one hostile airplane was destroyed and two others were driven down. One of our machines is missing."

French Airmen

PARIS, June 13.—The War Office communication tonight says: On June 12 our bombing planes dropped in the battle zone sixteen tons of projectiles and 25 tons last night on cantonmnets, convoys and marching troops behind the enemy front, and bombarded as well the villages of Ressons-sur-Matz, Ricquebourg and the regions of Roye and Guignicourt. Several fires were observed. The same day, seven enemy machines were brought down and nine were put out of action.

"In the first week of June 12 enemy planes were brought down by anti-aircraft guns."

PENSION ROLL GROWS LONGER

Statement by Board Shows That Number of Pensions Granted Up to May 31 Was 34,879; Gratuities, 3,013.

ENORMOUS AMOUNT OF WORK ENTAILED

Office Staff Has Increased to Nearly 600 — Agreement With Other Governments for Reciprocal Payments.

OTTAWA, June 13. — The total number of pensions awarded from the beginning of the war up to May 31 was 34,879, and the total number of gratuities was 3,013, according to the figures made public by the Board of Pension Commissioners. As an evidence of the great growth in the work of the board it is stated that when the Board of Pensions Commissioners took over the work from the Pensions and Claims Board they had a staff of twenty-three, compared with the present organization of nearly six hundred persons.

The daily average number of pensions awarded is 120; in some months more than three thousand have been awarded. Since April 1, last, 2,550 existing pensions have been increased and 1,322 have been decreased, the increases and decreases being due to various causes.

The enormous amount of detail work in connection with the ordinary routine of the Pension Commissioners is shown by the fact that since April 1, last, 6,225 addresses have been changed and 2,495 medical re-examinations have been held. Up to and including April 31, 1918, the Canadian Government has paid pensions in other countries as follows:

The British Isles, 1,878; United States, 158; Australia, three; South Africa, two; Newfoundland, 25; France, one; Japan, three; Bermuda, two; Jamaica, one, and New Zealand, five.

The Canadian Government has entered into an agreement with other Governments with respect to the reciprocal payments of pensions, according to a statement issued by the Board of Pension Commissioners.

The Government of New Zealand and the Canadian Government have made arrangements whereby a Canadian pensioner residing in New Zealand is paid by the Government of the country in which he resides, but at the Canadian rate of pension. In return for this consideration, the Canadian Government also pays any New Zealand pensioner residing in Canada, but at the pension rate laid down by the New Zealand Government.

The Board of Pension Commissioners state they have received from time to time communications from pensioners residing in the United States asking if it is possible to have their pensions paid in the United States in such a manner that no exchange will be charged upon their cheques. This matter has been taken up, and it is found at present that it is not possible to make any other arrangements than to pay a pensioner by cheque, which of course will be subject to the rate of exchange existing between the two countries.

GERMAN WAR FUND USED IN PROPAGANDA

ST. PAUL, Minn., June 13.—Delegates to the American Federation of Labor today discussed with keen interest declarations made by George L. Berry, member of the American labor mission which recently returned from Europe, that English gold borrowed by France and paid as indemnity to Germany after the Franco-Prussian war, has been circulated in the Allied countries. According to Mr. Berry, the gold has been stored in Germany's war chests since 1870.

"German propaganda, which is stronger than German militarism, undermined Russia," he said today. "This same propaganda is now being practised in several Allied countries. The best evidence of this fact is presented in the appearance of this English gold, which was turned over to Germany more than forty years ago."

NAVAL COLLEGE WILL COME TO ESQUIMALT

OTTAWA, June 13.—The Canadian Naval College, which, since the explosion at Halifax, damaging some of the college buildings, has been temporarily located at Kingston, will be moved to Esquimalt for the present.

This official announcement was made today by the Naval Department.

The question of a permanent location for the college is still under consideration.

GENEVA, June 13.—Natives of Alsace and Lorraine to the number of 6,630, who are fighting for France, have been denationalized by the German authorities, according to a report received here from Mulhouse. A majority of these men are members of wealthy families who refused to enter the German army.

SINK MORE U-BOATS THAN GERMANS BUILD

LONDON, June 13.—In an interview with the London correspondent of the Petit Parisien, Sir Eric Geddes, First Lord of the Admiralty, had the following to say with regard to the submarines:

"The Allied navies continue to sink more German submarines than the enemy can build. It is certainly a fact that since January we have sunk more submarines than they have built. We attack their submarines seventy times a week on an average.

"We base our returns of submarines destroyed only on those seen to be wrecked, but most of the other submarines hit are in urgent need of repairs. It is evident that the result of many of our attacks are unknown. If you have moles in your garden you may put down a thousand traps without catching all of them, and the same way with submarines."

Quieter in Toul Sector

WITH THE AMERICAN ARMY IN FRANCE, June 13.—The artillery activity on the Toul sector diminished today. At four o'clock this afternoon a German plane dropped bombs behind the American lines.

GERMANS' AIMS ARE ELEVATED

Militarist Journals Are Inspired to Define Peace Terms Which Would Leave Allies Completely Humbled.

LONDON, June 13.—(British Admiralty per Wireless Press.)—On the strength of the military situation in France the German militarist journals apparently have been inspired to put forward new German peace terms of the most aggressive character. There is not much talk now of peace without indemnity and annexation. On the contrary, there is to be the severest punishment for all Germany's opponents, according to these newspapers.

The Kreuz Zeitung says that, as regards Great Britain, victorious Germany will require the reduction of the British navy to a maritime police force; the cession to an international council of Gibraltar, Malta, Aden and Singapore; guarantees against economic measures against German trade, provision for the supply to Germany of raw materials under most favored nation terms, and the restoration of all the conquered German colonies. In return for these concessions, Germany would be prepared to retire from Belgium, taking the Congo State in her pocket.

The Kreuz Zeitung says it thinks this is, on the whole, a modest programme.

AMSTERDAM, June 13.—After the speech by Gen. von Stein in the Reichstag, Herr Wirth, a deputy of the Centre section, asserted that better provision must be made for returning prisoners of war. He said it happened that in an eighty hours' journey prisoners had hardly anything to eat and were completely exhausted. Herr Wirth added that there were still soldiers who had received no leave for two years.

The Socialist deputy, Herr Schoepflin, said that iron crosses had lost much in esteem.

United States Army Ready for Greater Sacrifices if Necessary in Cause of Civilization—Brigading of Troops.

LONDON, June 13.—The American army is prepared, if necessary, to make a greater sacrifice than that involved in the brigading of American troops with the French and British, declares the correspondent of The Daily Mail with the American forces in France.

After recording constantly and deeply expressed regrets among the American troops that more trained Americans have not been available to assist the French, and the willingness of the Americans to sacrifice themselves if need be, the correspondent says:

"This is the spirit of the whole army. We have already seen how the President, with every readiness, fell in with the Allied desire to brigade American troops with the French and British. This was a greater sacrifice, perhaps, than most people imagine, but it is understood that if the events of the next few days and the plans of the Allies should so demand, the United States is prepared for an even much greater sacrifice, and of a character much more dramatic and startling.

"I cannot give details, and the necessity may by good fortune never arise, but whatever happens, the Allies will always carry a feeling of gratitude for the magnificent spirit with which the United States is playing her part in the war."

ADVANTAGE REMAINS WITH ALLIES' ARMIES

Vigorous Counter-Attacks Have Deprived Enemy of Any Ground Previously Taken at Very Heavy Cost—Main Line of Battlefield is Strongly Held.

ATTEMPTED DIVERSIONS BRING SMALL RESULTS

Attack in Great Force Planned by Germans Foiled by Poilus' Dash—Their Whole Front Thrown Into Confusion—Sharp Checks Have Forced Them to Pause

LONDON, June 13.—The Reuter correspondent at French headquarters, under date of Thursday afternoon, says:

"On the main line of the battlefield between Montdidier and the Oise, the situation changed only to our advantage during the night and morning. On the right, between Courcelles and Antheuil, the French consolidated themselves on their new line.

"On the left, along the lower course of the Matz river, another counter-attack pushed the enemy back to the north bank, thereby recapturing the whole German gains of yesterday. This morning our infantry cleared up the last remnants of the German garrison at Melicocq.

Attack South of Aisne

"Between the Aisne and Viller-Cotterets forest, the enemy, attacking on a front of four miles, succeeded in crossing the Dommiers plateau and got a footing on the west side of the ravine which separates it from Montigny and Mont Fontaine plateau.

"The French troops, although markedly inferior in numbers, are resisting gallantly, and the enemy's progress is slow and costly. The enemy so far has engaged five divisions on this battlefield, two of which are entirely fresh. For the moment this attack appeared to be no more than that of a division, and intended to draw our reserves from the main battlefield west of the Oise, where, since our counter-attack on Tuesday, the enemy has consistently had the worst of the fighting.

"Today was the fifth day of the battle. In the first two days the Germans, though held firmly on the wings were able by concentrating on the centre to push back the French for a considerable distance, thereby compelling them to yield slightly on the wings. On June 11, the enemy had decided by a general attack in great force to transform the terrible costly successes of the first few days into a decisive victory.

Thrown Into Confusion

"This intention was foiled by a French Counter-attack which broke up his preparations and restored to us an important series of positions where the Germans had believed themselves firmly established. The enemy's whole front was thrown into confusion. On the fourth day he was unable to undertake any operation on a great scale, and attempted nothing more than local attacks, which brought him no result whatever.

"Between the Aisne and Villers-Cotterets forest the enemy began a fresh attack, probably to draw the attention of the French command to the new sector and thus obtain a breathing spell to formulate a new plan of action on the main battlefield. If today passes without fresh efforts on the part of the enemy we may conclude that he has had enough and that the army which stopped his first rush in March can claim the honor of having brought his third onslaught to a standstill.'

Enemy Quiets Down

WITH THE FRENCH ARMY IN FRANCE, June 13.—(Noon)—The Germans have not recovered from the severe blow they received on the French left flank, where throughout the night and this morning the battle quieted down, giving the Allies full opportunity to establish themselves strongly. Further to the east, around the centre of the line, the French took the initiative, delivering a number of small and successful counter-attacks. As a consequence, the village of Melicocq and the important height of Croix Ricarde were retaken. Probably for the purpose of making the Allies move their reserves toward the right flank, the Germans started a big diversion in the vicinity of the forest of Villers Cotterets. The enemy progressed slightly, obtaining a footing in Couvres, but this does not improve the situation. Five German divisions participated, two of which had just reached the battlefield.

The attack extended along a front of about four miles, but met strong opposition from the French, who fought with such determination that the Germans apparently renounced their efforts.

Christens Britain's New Warship

LONDON, June 13.—Mrs. Walter Page, wife of the American ambassador to Great Britain, christened H.M.S. Eagle, one of Great Britain's largest naval ships, which was launched on the Tyne. The Royal Naval Ensign and the Stars and Stripes flew from the bow of the vessel.

Von Seydler Resigns Again

LONDON, June 13.—A dispatch to the Exchange Telegraph from Amsterdam reports that Dr. von Seydler, the Austrian Premier, tendered his resignation to Emperor Charles on Wednesday. The dispatch adds that the Emperor has not yet accepted it.

PREMIER URGES UNITED STAND

Hon. John Oliver Declares Canadian Northern Pacific Road Will Be Finished if Island Speaks Loud Enough.

Declaring that no section of Canada had a more just grievance in the treatment it had received from the Canadian Northern Railway than Vancouver Island, Premier John Oliver last night told the Board of Trade that he was confident there were plenty of steel rails if the proper source were tapped and that a determined fight for the railway's completion was bound to bring results.

The Premier was heard by upwards of seventy-five members of the Board of Trade and his remarks met with approval, as was evidenced by the loud applause which followed many of his statements. He reviewed at length the Canadian Northern situation, described his recent trip to Ottawa and the interviews he had with the various Federal ministers interested in the question. He wound up with the assertion that it was high time the Board of Trade, City Council and the people representing Vancouver Island got together and stated in no uncertain terms that they wanted justice meted out to them and demanded the completion of the railroad on which they had based their hopes of future prosperity.

Acting on the address of the Premier and that of Dr. S. F. Tolmie, M.P., who succeeded him, the Board of Trade passed a resolution urging the immediate completion of the road, which will be forwarded on to Ottawa.

Realize Victoria's Dream

President Joshua Kingham introduced the Premier and declared there was nothing which Victoria should boost more than the linking up of the C.N.R. on the Island, thus approaching the realization of Victoria's dream of a transcontinental railroad that began at its doorsteps.

The Premier recalled the days when the C.N.R. programme was first under discussion. The people of Victoria, in common with others, had expected that the laying of the tracks would usher in a period of unexampled prosperity. They had willingly guaranteed the bonds.

"This is no time for discussing the wisdom or otherwise of the policies of the past," declared Mr. Oliver. "But this is a serious situation which we are faced with, and I intend to deal with it not from the standpoint of one political party, but in the interests of the people of the Province. Taking the proposition on par value, or perhaps at a slight discount, you branched out, enlarged your business, improved your streets. All this entailed a large expenditure, but you were building on hopes of great prosperity in the future. How bitterly you were disappointed I need not touch upon. Repair shops, terminals, car-ferries connecting with the Mainland—all these were part of your expectations"

"Gross Breach of Faith"

Then he went on to assert that four years after entering the contract for the construction of the line on the Island, the C.N.R. had approached the Government with empty pockets and with the task still uncompleted. "I have not hesitated," he declared, "to denounce the Canadian Northern for gross breach of faith in almost every direction with the people's money. And the cruel part is that we never possessed the means of redress, for to bring action against the

COLUMBIA RIVER IS AT HIGH STAGE

REVELSTOKE, June 13.—The Columbia river is on a rampage, due to the hot spell of the last few days, and yesterday was within five and one-half feet of the high record of 1894. The river is still rising, and if the hot weather continues the record of 24 years ago may be broken.

The piling at the west end of the traffic bridge over the Columbia was undermined on Tuesday, but has since been restored to perfect condition. Bridge Inspector John Abrahamson is keeping watch day and night.

A number of the ranchers on the lower flats around the city are becoming anxious lest their property should be inundated and loss caused to crops.

It is reported that at Golden six feet of water covers the lower-lying portions of the town, and that four locomotives are stalled in the Golden roundhouse, the tracks leading into the roundhouse being lower than those on the main line.

Ships Can Be Refloated

WASHINGTON, June 13.—Unofficial estimates by naval experts show that more than 500,000 tons of shipping sunk by submarines may be refloated as a result of salvage operations conducted by Great Britain and other Allied Governments. American naval engineers are to be sent to assist on this work, carrying with them a fleet of sea-going tugs, scows and other equipment.

UNION MEMBERS ARE PROTECTED

Officials of Postal Telegraph Company Comply With President Wilson's Request in Matter of Dismissals.

NEW YORK, June 13.—Official announcement that the Postal Telegraph Cable Company, at the request of President Wilson, had "waived its right during the war to discharge employees who joined a union," was made in a message, signed by Edward Reynolds, vice-president and general manager of the company, which was sent today to division superintendents.

This message was issued after Clarence H. McKay, president of the company, had telegraphed President Wilson, acknowledging the receipt of a letter from him and asserting that "we cannot but respond to your request."

Newcomb Carlton, president of the Western Union Telegraph Co., who recently declined for his company to submit to the jurisdiction of the National War Labor Board, which sought to adjust the differences between the company and those of its employees who are members of the Commercial Telegraphers' Union of America would not state tonight whether he had received fdom President Wilson a letter similar to that received by Mr. Mackay.

The message sent today to superintendents of the Postal company follows:

"Beginning today, you will carry out the terms of the following telegram, which Mr. Mackay sent to President Wilson last night: 'In reply to your letter of yesterday, allow me to say that this company has done its very utmost since the beginning of the war to assume its full share of responsibility to the government and to the public, and that in order to still further show its sincerity and earnest desire to be of service at this time of national trial, we cannot but respond to your request that we waive during the war our right to discharge employees who join a union, and you may rely upon our doing so.'"

BOLSHEVIKI SEE COUNTER-PLOTS

Allege That Opposition Parties Have Combined in Effort to Overthrow Soviets—Generals Are Participants.

MOSCOW, Saturday, June 8.—(By the Associated Press.)—A recent counter-revolutionary plot against the Soviet Government, according to a semi-official statement issued today, was backed by various elements in Russia opposed to the soviets and the leaders were General Savinkoff and General Dovguern. It was planned to cut off Central Russia from the Ural region and thus starve out the present Government. The statement says:—

"Investigations of the recent plot reveal that, under the title of the League for the Defense of the Fatherland and Liberty, this organization included all the reactionary elements in Russia, from the maximalists to the monarchists. The monarchists sided with Germany in the hope of restoring the monarchy, while the left wing favors a return to the alliance with the Western Powers.

"Notwithstanding the great divergence in the views dividing these parties, they agreed to unite in a so-called national platform in a common effort to over the power of the soviets. The central figures behind the plot are General Savinkoff and General Dovguern. The strategical plan is to isolate the Ural region from Central Russia and compel the soviets to capitulate owing to the lack of supplies. Cossack troops with reactionary officers are holding themselves in readiness in the east. Numerous additional facts gradually are coming to light."

SEIZURE OF OPIUM MADE AT VANCOUVER

VANCOUVER, B.C., June 13.—Seventy-nine tins of opium, valued at $9,000, transported in a trunk from Montreal to this city, fell into the hands of detectives this afternoon after they had followed the drug from the depot to a shack, where it was received by two Chinamen, who were placed under arrest.

The arrests this afternoon are believed to be important as a means of breaking up the greatest ring of opium dealers in Western Canada, whose operations reach as far south as San Francisco.

No Conscription of Labor

MONTREAL, Que., June 13.—Senator G. D. Robertson, president of the national registration committee, has written to J. J. Grignan, Saint Scholastque, Quebec, stating that the Government of Canada has no intention of conscripting labor in any manner, either men or women.

Letters Written From Germany Give Evidence of Starvation Among Poor — Austrians and Turks Also Go Hungry.

LONDON, June 13.—(British Admiralty per Wireless Press)—Private letters from Germany which have come into Allied hands indicate the heavy weight which the war has imposed upon the poor in that country. Anxiety for peace finds frequent expression, as well as anger with the militarist element in the nation.

"We hope that peace will come soon," writes a man from Berlin, "for if the war lasts much longer then the people here will make peace. Twice already there have been small riots, but when the third comes it won't go well with the rich people. For the poor there is so little food that they can hardly live, while the rich people have stores laid up for years. Poor people are only fit to be shot. The men in the field suffer for the rich, and we have to go hungry."

Along the same lines a man from Central Germany writes:

"If the rich people had nothing to eat, as we poor people have, the war would soon come to an end.

"As long as the militarists insist 'the Fatherland must be greater' there will be no peace," writes a woman from Stettin, and disgust with the methods of pan-Germans is a strong note in letters from all parts of the country.

LONDON, June 13.—A prominent member of the Vienna Food Bureau has made the following statement to a representative of the newspaper Die Zeitung, a copy of which has been received here:

"Unfortunately Vienna must give up hope of better food conditions during the Summer. The Ukraine is our only hope for June."

WASHINGTON, June 13.—Turkey is starving and Germany and Austria are having a hard struggle to feed themselves, while Hungary has a comparatively abundant food supply, and Bulgaria is suffering less than any of the Allied Central Powers according to a survey of conditions in those countries made public tonight by the Department of Labor.

OKANAGAN ORCHARDS PROMISE GOOD YIELD

VANCOUVER, B.C., June 13.—Last year's Okanagan Valley fruit crop statistics showed that the output aggregated $200 per capita of population. This year's crop, according to Mr. F. W. Peters, of the Canadian Pacific Railway, will be just as big as in 1917, unless bad weather conditions interfere with present prospects.

Mr. Peters returned this morning from the Okanagan. On Monday last, with twenty-eight C.P.R. agents, he attended a meeting of fruit growers of that section, held at Vernon. The meeting was to discuss the best methods of crop movement for the coming season.

RIOTS OF SOLDIERS CAUSED BY LIQUOR

QUEBEC, June 13.—A searching inquiry is to be made as to who is providing soldiers with liquor in the city of Quebec. On Tuesday a former soldier, John McCormick, died in a local jail cell after drinking bay rum.

A number of incipient riots have broken out recently, and yesterday a row which ended in a display of knives broke out on a ferryboat at the rush hour. The Ontario soldiers on duty at one of the forts opened fire with red hot epithets on the crew and strangers, and in the row which followed they were caught, bound and almost gagged, by the crowd, roused to a fighting spirit by the epithets used.

Three men were rescued from the crowd by the police and turned over ot the military authorities. They will be tried before a court-martial.

Bolsheviki Ambassador

LONDON, June 13.—It is reported in Copenhagen, says a Daily Mail Dispatch from that city, that M. Borovsky-Odovsky, the Bolsheviki minister to Sweden, is to go to Washington as the Bolsheviki ambassador to the United States. The minister now is in Berlin.

FIFTY YEARS AGO TODAY

(From The Colonist, June 14, 1868).

From the Mainland—The steamer Otter arrived on Saturday at 2 p.m. from New Westminster with mails and ten passengers. At a meeting of the New Westminster Agricultural Society it was resolved to hold an exhibition in October next. The Governor and party arrived at New Westminster from Cowichan on Friday evening. A man named Tim Coakley was found drowned at Burrard Inlet on Friday. He was several years cook at Moody & Co.'s mills.

Nanaimo Coal—The shipments for the month of May last amounted in total to 4,196 tons. The ships Victor and Isaac Jeans, of San Francisco, respectively took 1,020 and 1,217 tons.

AUSTRIAN NAVY IS SEVERELY HIT

Sinking of One Dreadnought and Damaging of Another by Italians Makes Great Gap—Feat Is Extolled.

VENICE, June 13.—(By Associated Press.)—Commander Rizzo, whose remarkable exploit in sinking an Austrian battleship in the Adriatic has thrilled Italy, tells a graphic story of the encounter in which he took part and during which another Austrian battleship was either badly damaged or destroyed by another motor boat in charge of Commander Millazo. It is possible that 2,000 sailors were lost during the encounter.

"I am sorry for the sailors who lost their lives," he said in beginning his story, "but am glad that we got the dreadnoughts. Why, they had ventured out of Pola harbor no one knows, but it was certainly foolish for them to do so. I was on patrol scout duty, as usual, off the Dalmatian coast near Pass Salve, between the Islands of Asinello and Premuda. I had just finished my patrol and had turned for my base, when about ten miles away I saw a great enveloping cloud of smoke. It appeared like a blot through the early light. I thought at first it was some boat which had discovered me and was giving chase.

All Volunteer

"I determined to make the best of a bad fix. After turning back, I said to my two crews of ten men to each boat: 'Fellows, the Italian scout boats have been waiting for two years, and the whole Italian navy has been trying to destroy Austrian ships for three years. Are you willing to risk all on a chance of obtaining glory and the country's gratitude?'

"To a man they answered 'Yes.'

"We were speeding back with our motors muffled, when, to my amazement, I discovered two battleships surrounded by a number of destroyers, which later I counted as ten. I assigned the second battleship to the other motor boat while I took the first.

"I slipped inside the line of destroyers, between the third and fourth of these craft. I was not noticed in the light fog. The water was smooth and my torpedoes got off nicely. My first, with a 500-pound charge, struck the first dreadnought between the two funnels, while the second struck her just aft the second funnel. As the torpedoes exploded I saw the mighty ship tremble, two great fountains of water rose high in the air, and black smoke welled up from the rents in her side. Then I ran for it, escaping between the second and third destroyers in the line. I was discovered by the fourth destroyer, which gave chase at a distance of 150 yards and fired on me. I was too close, however, to be hit. Then I dropped a depth charge bomb, such as I generally used against submarines. Fortunately for us it exploded under the destroyer. I saw her leap into the air, turn sharply and then stop, giving up the chase and permitting us to escape. The other destroyers were busy trying to save the lives of the sailors on the dreadnought."

Notable Victory

ROME, June 13.—"The splendid exploit off the Dalmatian coast last Monday morning is equivalent to a great naval victory," says The Idea Nazionale, commenting on the achievement of Commander Rizzo. The newspaper believes that the two Austrian battleships torpedoed by the two Italian torpedo boats under Rizzo's command were lost.

Commander Rizzo is the officer who entered the port of Trieste and torpedoed the Austrian battleship Wien on December 9, 1917.

"This time," says the newspaper, "there were involved some of the largest ships of the Austrian fleet at Pola, from which port they had never issued since the beginning of the war, but which is now considered unsafe after the audacious exploit of Commander Pelligrini, who succeeded in entering that harbor and torpedoing a dreadnought.

"The enemy squadron, profiting by a moonless night, was trying perhaps to reach Sebenico or Cattaro, but could not escape the close watch of Rizzo, who was thus revenged for the famous plots by which, at the beginning of the war the enemy succeeded in blowing up the Italian battleships Benedetto Brin and Leonardo da Vinci. Thus Austria has lost altogether three of her greatest naval units of the Veribus Unitis type, and has only one left.

"The Austrian destroyers which were escorting the torpedoed dreadnoughts opened a terrific fire against the two small Italian torpedo boats and pursued them, but without result.

Why I Believe in Nuxated Iron
As a Tonic, Strength and Blood Builder

Probably no remedy has ever met with such phenomenal success as has Nuxated Iron. It is conservatively estimated that over three million people annually are taking it in this country alone. It has been highly endorsed and used by Former United States Senators and Members of Congress; Physicians who have been connected with well-known hospitals have prescribed and recommended it; Monseigneur Nannini, a prominent Clergyman, recommends it to all. Former Health Commissioner Wm. R. Kerr, of Chicago, says it ought to be used in every hospital and prescribed by every physician.

Dr. A. J. Newman, late Police Surgeon of the City of Chicago, and former House Surgeon Jefferson Park Hospital, Chicago, says Nuxated Iron has proven through his own tests of it to excel any preparation he has ever used for creating red blood, building up the nerves, strengthening the muscles and correcting digestive disorders.

Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor dep't.) New York, and the Westchester County Hospital says there are thousands of men and women who need a strength and blood builder but do not know what to take. In his opinion there is nothing better than organic iron—Nuxated Iron—for enriching the blood and helping to increase the strength and endurance of men and women who burn up too rapidly their nervous energy in the strenuous strain of the great business competition of the day.

If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained.

Manufacturers' Note: Nuxated Iron, which has been used by former members of the United States Senate and House of Representatives, and other prominent people with such surprising results, and which is prescribed and recommended above by physicians is not a secret remedy, but one which is well known to druggists everywhere. Unlike the older inorganic iron products, it is easily assimilated, does not injure the teeth, make them black nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed by all good druggists.

No Sugar for July 4

PORTLAND, June 13.—Hundreds of applications from small boys and others, who want allowances of sugar for lemonade and orangeade concessions on July 4 will be refused by the Oregon Food Administration, it was announced today. It was pointed out that it is the patriotic duty of Americans to save sugar on the nation's birthday by omitting to buy or sell those drinks requiring it.

THE ONLY TEST

Lieut.-General Sir Arthur Currie has developed in more ways than in a military capacity since this war commenced. He has become a first rate speaker and shown an ability in grasping the essentials of the time for which he has earned considerable fame. Many of his sayings regarding the war have been quoted with approval by the leading London newspapers. In fact, in the Empire's metropolis he has become a figure of considerable note, although his visits there have been few and far between. He has recently been speaking at a dinner given by Sir Edward Kemp in honor of Sir Robert Borden and the other members of the Canadian Government, and the dispatches say his speech made a remarkable impression. General Currie has never been in the habit of minimizing the seriousness of the war. He emphasizes how, in his estimation, the truth has been hidden too long, by which he means, no doubt, that German strength has been underestimated. The enemy, he says, has struck four mighty blows with success, and it is just a question how many blows the Allies can afford to endure.

This conception of the situation will tend to have a steadying influence, especially now that the old-time stories of the lost German morale and starvation in the Central Empires are again beginning to worm their way into the limelight. We have been regaled with these comforting illusions since the early days of the war, and yet Germany, so far, has not exhibited a sign of collapse. If statements such as General Currie's will serve to impress on the Allies that the only way to defeat Germany is by utilising greater strength than she possesses, or in other words beating her on the battlefield, a very useful result will have been accomplished. We have been laboring under a censorship for some years and its great weakness has been it has omitted to censor the very information which has the most inclination to reduce war effort. Everything tending to show Germany is weakening internally, or that her troops are losing their morale, is permitted to be printed, and a great mass of the population has got into the habit of laying the flattering unction to their souls that the war is all but over. Again and again Germany has disproved the dispatches which she permitted to go out, even though many of them have been based on information printed in her own newspapers. Some of the leading statesmen of the Empire have been hoodwinked by the methods of German propaganda.

It is time we looked at facts in all their nakedness. Germany's great attacks in the West may be in the nature of a starvation offensive, but that is all the more reason the preparations of the Allies should be increased, for when a nation is desperate she fights best. What should be our only concern is Germany's military strength. All else that is happening in Germany, and all the rumors we hear about her "terrible plight," do not matter in the least until they become contributory factors to her defeat. There has yet to be the first faint indication that anything happening in Germany is in any way paralyzing her efforts on the battlefield. For these reasons General Currie's statement should prove a tonic. The situation is and will remain serious on the Western front, and it may grow more serious still until the time comes when the strength of the German battering ram wanes. The Allies are making a magnificent defence, but their armies are passing through a stage of exhaustion which can only be rectified by supreme efforts being made to provide all the men and all the guns which will be so necessary before this war is won.

A NEW DANGER ZONE

The announcement that the German Admiralty is to declare the Eastern coast of the United States a submarine zone shows the destruction of eighteen ships on that side of the Atlantic within the past fortnight was a commencement of the extension of the scope of the U-boats. It means America will have to build up a fleet of patrol boats, will have to mine her harbors, establish mine areas in the most frequented waterways and provide a convoy system from one side of the Atlantic to the other. The declaration of this submarine zone will be intended as a warning to neutral shipping, not that Germany respects this tonnage, for she sinks it wherever she can, but it probably is a hint to neutrals, such as Norway, Sweden, Denmark and the Dutch, that their vessels will not be respected unless their Governments acquiesce in Germany being supplied through those countries with products of the United States. It is in the nature of a reply to America's co-operation in tightening the blockade of Germany, though primarily designed to effect all possible destruction among the merchant marine of the United States.

An unrestricted U-boat policy off the shores of the United States will present many problems. It has taken Britain upwards of fifteen months to perfect her system of reducing submarine losses, and, over a wider area, and with the whole Atlantic as his background, the enemy will have greater opportunities to circumvent whatever precautions may be taken by America. We notice there is a disposition in many quarters, even among Government officials themselves, to decry the significance of German submarines operating off the United States. It is a grave error to take any such view. Germany has taken this step for two reasons. The sphere of her activity in British waters has been circumscribed. She is turning elsewhere, in search of victims, and it is logical she should look to the shipping of the United States, whose tonnage is now being increased at a faster pace than that of any other nation. Germany realizes the enormous factor America is becoming in the war. No doubt from now on the enemy will do everything in his power to interfere with preparations on this side of the Atlantic, since the possibility has arisen that American shipbuilding may, eventually, not only offset the submarine losses, but go a long way towards repairing the depreciation in the world's tonnage.

If we are not mistaken, the future will witness a ruthless submarine campaign off the American coast. It will be difficult to combat at its outset and for this reason considerable losses will have to be anticipated. It will mean the United States will have to put forward still greater efforts to build more ships. Men and ships stand out as the preeminent needs of the war. There cannot be too many of either provided. The United States realizes this. From a psychological standpoint, Germany's new submarine campaign will hold no terrors for America. On the contrary, we believe the fact of the war being brought close home will do much to arouse the people to an even clearer realization of the nature of the foe who is seeking to conquer the world by force.

A MINISTER'S VISIT

A few days ago we commented on the excellent work being done by the Department of Soldiers' Civil Establishment, and now we would suggest that, owing to the presence of Sir James Lougheed in the city, he be asked to speak on the subject. Sir James is the responsible Minister. Ever since the care of returned soldiers became a policy which had to be faced he has been largely instrumental in what has been accomplished on their behalf. There is no one in the Dominion who has taken a keener or more consistent interest in the lot of the returned men. Sir James Lougheed deserves the utmost credit for what he has already put in practice. He is at present laying the foundations of a policy which should go a long way towards solving the entire problem. As we have pointed out, no fewer than 179 different occupations are now being taught to returned soldiers. The system which has made this possible must be an extremely interesting one and for this reason we think the opportunity for enlightenment, through Sir James Lougheed's presence in the city, should not be allowed to escape. It is a matter in which everyone is interested in some form or other, for the welfare of the returned men should be very close to all our hearts.

Armenia

Sir:—You will, I am sure, be pleased to encourage our efforts to send relief to our suffering brethren in the East. They have made the most heroic efforts, and the soldiers are holding the line in greater numbers than we realize. They have died for their country. They have died for liberty, their own and ours. They have died for Christ. Now they are starving, and look to us to feed their little ones. Their women and their men have been brave beyond words. Let us give as liberally as possible on Saturday, our Tag Day for their relief. Our hearts freely go out to these, our fellow Christians, fighting a common foe. Fifteen cents feeds one for one day. We should be able to give several thousand dollars in Victoria for so worthy a cause. May we have willing hearts; the rest will follow, and our boxes will be filled with loving gifts on Saturday evening.

CAROLINE MACKLEM.

Germans Advance in Russia

LONDON, June 13.—The Germans in the Ukraine began a new movement eastward on June 10, according to a Russian Government wireless dispatch. Foreign Minister Tchitcherin has instructed Ambassador Joffe at Berlin to complain about the movement which is on a width of 100 versts on the Valuiki-Sepukovka station front, south of Moscow. It is charged that the movement is in violation of the line of demarcation agreed upon by the German Government. The Germans are asked to retire to their old positions.

BY-LAW MAY CLOSE DOWN BIG MILL

City Opens Prosecution of Canadian Puget Sound Plant, Alleging Smoke Nuisance—Heavy Producer for Allies.

The city's official objection to smoke fumes from the saw-mills may result in robbing Victoria of one of its greatest industries—one that is now working at top speed to produce materials urgently required for war purposes.

The first case under the Smoke Nuisance By-law will be dealt with in the police court this morning, when the Cameron Lumber Company will appear as defendant against the charge of operating at the Canadian Puget Sound mill a refuse burner that Fire Chief Davis contends does not meet the by-law's specifications. The company maintains, on the other hand, that it has consulted experts throughout the Northwest, and been told that the burner now in operation could not be improved upon. It also maintains that the running of the Canadian Puget Sound mill is only a day-to-day proposition, as the plant is in the hands of the bondholders and only leased to the Cameron interests. The lease is indefinite, and may run out any day. In view of this, the company holds that it would not be justified in making any alterations to the plant as demanded by the city authorities.

The smoke nuisance bylaw was passed last September by the City Council after many hours of debate, in which the Board of Trade and other public bodies had their share. But today the ordinance is to undergo its first actual test. The penalty on summary conviction under the bylaw does not exceed $50 for each offence, and the company might be fined that amount each day the plant is operated, all depending on the magistrate's attitude.

Scope of Bylaw

The substance of the by-law follows: "Every manufacturer within the city of Victoria, and every keeper of a slaughter house, shoddy mill, crematory, cannery, rag, bone or fertilizer works, laundry, electric light or power works, carpet cleaning works, chemical works, or lumber or wood working mill, within the said city shall have such chimneys, furnaces or other apparatus or equipment as shall consume the dust, cinders, soot, charred sawdust, or fumes therefrom, or shall prevent the same from fouling or contaminating the atmosphere or being carried by the wind or otherwise to other shops, houses or premises, to the inconvenience, detriment or injury of persons or property within the city of Victoria."

President J. O. Cameron and Secretary D. O. Cameron, speaking to The Colonist yesterday, said that if the city persisted in its condemnation of the existing burner at the C.P.S. plant it would simply result in closing down the whole mill. "What that means to Victoria, what that means to the Allies, is shown in the fact that we were second in British Columbia during April and May in getting out aeroplane fir and spruce, and that we manufactured more ammunition boxes last year than any other mill in the whole of Canada," said Mr. D. O. Cameron.

Has Big Payroll Here

Figures were presented to show that the company's payroll in 1917 amounted to well over a third of a million dollars, and that 300 men are steadily engaged at the Canadian Puget Sound mill alone.

"This order hits us just as we are making an effort to get out every foot of lumber that we can possibly lay our hands on, knowing that the Imperial Government vitally needs all it can get," said Mr. J. O. Cameron. "Since 1916 we have supplied lumber in various forms for war purposes exclusively to the value of, roughly, $1,066,000. This output had, of course, been made up in 1916 and the greater part of 1917 by the two mills, but our Garbally Road plant was put out of action last Fall by the fire, and lately we have had to rely almost entirely on the Canadian Puget Sound plant, which the city will put out of business if the by-law stands."

Mr. Cameron presented the following statement showing the extent of the company's sales during the past two years and a half:

	1916	1917	1918	Total
Knox Bros.	$ 444.05	$ 51,903.27	$22,938.88	$ 75,286.20
Imperial Munitions Board	....	74,271.92	18,933.23	93,205.15
Forest Branch	178,964.93	365,273.77	22,569.97	566,808.67
Cameron-Genoa Mills Shipbuilders	47,345.62	88,905.21	....	136,250.83
Balfour, Guthrie & Co.	3,159.29	53,232.46	....	56,482.75
Henry D. Davie Lumber Co.	601.36	33,834.63	....	34,435.99
Engineering Timber Co.	....	4,492.75	2,865.88	7,358.63
Foundation Company (Ships for French Government)	....	....	66,464.00	66,464.00
Other ships, Seattle	....	....	30,000	30,000

Such a production as this, it was pointed out, means a large revenue for the Provincial Government as well, as the average output per month is 200,000 feet, and the royalty charge ranges from 85 cents to $1.50 per thousand.

Increased Output Urged

Proof that the need for lumber products is serious and that the Cameron Company is appealed to for even heavier production than in the past is given in the letter just received by the firm from Mr. A. D. Roy, superintendent of manufacture for the Imperial Munitions Board, quoted in part as follows:

"Letters have been received from the chairman of the Board expressing his appreciation of the increase in shipments of aeroplane lumber during the past month and it is the desire of the local representative to pass this along to those who have contributed to the above result. I might say that the mills shipped as much as was expected of them during May, but not all that was wanted.

"We have led the chairman to believe that there would be an increase of approximately 33 per cent. during June, and it is certainly hoped that the mills will be able to supply at least that increase. I wish to assure you that the members of the Board will appreciate an extra effort on your part. A few of the mills may not be able to ship as much during June as they did in May, owing, in some cases, to sawing a poorer quality of logs. On the other hand, other mills should be sawing a better quality and should be in a position to furnish a greatly increased amount."

AFFECTS B.C. LEGISLATION

Judge Cayley's Decision Raises Serious Point on Which Province Will Seek Higher Decision.

Whether the Dominion Order-in-Council providing a fine as penalty for selling liquor under the new Federal regulations supercedes the provisions of the B.C. Prohibition Act, which makes a jail term of six months obligatory is a question which, Attorney-General Farris stated yesterday, probably will be carried to the Court of Appeal of British Columbia under the provisions of the Constitutional Questions Determination Act. This step is, apparently, the only one left, as there is no appeal from the judgment of His Honor Judge Cayley, who sat as an appeal judge under the provisions of the Summary Convictions Act, and whose judgment in the case of the conviction of J. B. Edwards, at Alert Bay, for selling liquor has raised the point now worrying the provincial law department.

In that case Edwards was sentenced to six months in jail, the only penalty the Provincial Prohibition Act prescribes for those found guilty of selling liquor. But, His Honor Judge Cayley held when action was taken to have the police court conviction quashed, that under the provisions of the B.N.A. Act the provincial legislation was invalid on the ground that in matters where provincial and Dominion legislation cover the same ground, such as in the case of the sale of liquor, the Federal act is supreme.

Attorney-General Farris suggests that if the decision of His Honor Judge Cayley is right, then the Federal regulation is another serious case of invasion of provincial rights. Further, the decision, if upheld, will seriously impair the effectiveness of the provincial prohibitory legislation, legislation which was approved by the people of the province.

BLUESTOCKINGS TO PICK STRAWBERRIES

First Party of University Girls Arrived Yesterday From Vancouver and Began Work at Gordon Head.

Strawberry harvesting has already commenced in the Gordon Head district, and although the full rush of a busy season is still a long way off—as fruit picking goes—there is a small buzz of activity up and down the country lanes and in the fields that foretells the bigger hub-bub of a few weeks hence when the berries are pouring in in wagon loads to the clearing house.

Everyone in and about Victoria took a great interest last year in the movement on the part of the British Columbia University girls to take the places in the orchards and on the fruit-farms of the men who had been called away overseas to bear arms against the enemy. When the young women students went away they left hosts of friends in the persons of their employers and their associates in the Gordon Head district. No one hoped that the war would still be going on in June, 1918, but the girls on their side were anxious to come back if their services would still be of use in helping out in a national contingency. They had enjoyed the experience, moreover, and wished to repeat it.

On yesterday morning's boat from Vancouver there embarked a small contingent of the same girls: Miss Helen Wesbrook, daughter of Dr. Wesbrook, president of the British Columbia University; Miss Constance Denness, Miss Lena Bodie, Miss Margaret Cameron (who held the record last year as the fastest picker among the students who came down here). The following other girls also arrived yesterday with the same party; Miss Pauline Guntzburger, Miss Dorothy Bolton, Miss Eugenie Fourier, Miss Agnes Morrison, Miss Evelyn Hanna, Miss Phoebe Senkler, Miss Alice Ullock, Miss Creech and Miss Lyne.

The girls reached their destination at Gordon Head about five o'clock yesterday afternoon, and were reintroduced (in the case of the old-timers) to their billets and dining quarters. Small alterations have been made in the plan of these, with the exception that there are more tents provided as sleeping quarters at Mr. Summers' place, and a dressing room has also been erected. The meals will be supervised as last year, by Mrs. Peter McNaughton, and will be served in the nice, airy pavilion which was the scene of many merry gatherings last year at breakfast and tea time.

About fifty girls in all are expected from Vancouver when the full tide of the strawberry season arrives. Those who arrived yesterday will be able to handle the fruit at the present time, and this morning will find them in their working jumpers down among the vines.

In the matter of rationing the pickers a more or less military system is to be tried, and the local food commissioner, Mr. Hill, was consulted well in advance with a view to providing the girls with a good wholesome diet, whilst adhering strictly to the food conservation ideal.

Other girls who are coming down from Vancouver who were here picking fruit last year are Miss Highmoor, Miss McLean, Miss Robson and the Misses Mounce, while Miss Kilpatrick will be one of the "tenderfoots" still to have her first experience in the rows.

Four well-known Vancouver University girls, Miss Shirley Clement, Miss Ronnie Clement, Miss Bernie Bain and Miss Marjorie Beck, have signed up for several weeks' work in a cannery.

WOULD-BE SUICIDE

His throat gashed no less than six times in such a manner as to almost preclude the possibility that the wounds were not self-inflicted, Jong Yip, a Chinaman living at 1619 Government Street, was found lying in the bush in Beacon Hill Park at the corner of Cook Street and Dallas Road yesterday afternoon at 2:30 o'clock by Mr. George Hapwood, one of the park employees.

Still alive, the Oriental was hurried to St. Joseph's Hospital by Police Sergeant Boulton and Constable Strange in the motor patrol, and for three hours Dr. Lennox worked on the patient, sewing up the wounds. The discovery of a razor alongside the spot where the Chinaman was found would indicate that he attempted to take his own life, but Dr. Lennox stated that it was almost incredible that the woulds could have been self-inflicted, so numerous and so serious were they. There is a bare chance that the man will live provided complications do not set in, though the chance for life is a slim one.

Police investigation last night disclosed the identity of the Chinaman, whose condition is such that he cannot talk when questioned. While the razor missed the jugular vein, a number of large veins were severed and the wind-pipe was completely cut through, while one side of the throat was horribly mangled.

So far as could be ascertained, no one saw Jong Yip in the vicinity of the spot where he was found. His wounds had apparently been inflicted an hour or two before the park employee discovered him almost at the point of death through loss of blood.

Jong Yip, according to the story his wife told Detectives Murray and Heather last night, has been despondent for some time. Recently he received word from China that his father had been captured by river pirates there, and this, added to financial troubles and the fact that he was out of work, created his despondency. He is about 40 years of age, and besides his wife has a son.

Senatorship for Henry Ford

LANSING, Mich., June 13.—Henry Ford, the Detroit automobile manufacturer, who has been mentioned as the Republican candidate for United States Senator to succeed William Alden Smith, whose term expires next year, was endorsed by Michigan Democrats in conference here yesterday, and slated "to become our party candidate, although he is not within our fold." The endorsement of a Republican candidate by a Democratic conference is unparalleled in Michigan political history.

Anniversary of American Troops

PARIS, June 13.—On the anniversary of the arrival in France of the first American troops, President Poincare has telegraphed to President Wilson an expression of the admiration of France for the magnificent effort put forth by America, and felicitations over the conduct of the troops, who are commencing to give on the field of battle examples of their gallantry and bravery.

CROP ACREAGE SHOWS INCREASE

Official Report States That All Provinces of Canada Have Extended Their Grain Cultivation Areas.

OTTAWA, June 13.—An increase of 1,324,950 acres in the amount of land sown to grain and hay in Canada, this year, as compared with last year, is shown in the first preliminary crop bulletin for the season, issued today by the Dominion Bureau of Statistics. This is an increase of 9 per cent.

The returns show every satisfactory increases in the area sown to wheat and oats, and the condition of these crops on May 31 was generally better than at the same date last year.

The total area sown to wheat for the whole of Canada for 1918 is estimated at 16,080,800 acres, against 14,755,850 acres in 1917. The area to be harvested of Fall wheat is 338,000 acres, and the area sown to Spring wheat is 15,752,800 acres, so that the increase of the latter compared with 1917 is 1,712,250, or 12 per cent. The area sown to oats is placed at 13,739,000 acres, against 13,313,400 last year, an increase of 425,600 acres, or 3.2 per cent. The acreage of barley is 2,395,800, against 2,192,200 in 1917; rye, 234,530 against 211,800; peas, 200,430 against 198,881; mixed grains, 506,530 against 497,236; hay and clover, 8,200,300 against 8,225,034, and of alfalfa, 103,800 against 109,825.

Areas sown this year to wheat, oats, barley and rye are the highest on record for Canada. Wheat sown in the Prairie Provinces totals 15,196,300 acres, against 13,619,410 acres last year; oats, 8,767,000 against 8,559,500, and barley, 1,845,500 acres against 1,850,000. To wheat, Manitoba has sown 2,618,000; Saskatchewan, 9,222,000, and Alberta, 3,356,300 acres. Oats: Manitoba, 1,500,000; Saskatchewan, 4,620,000, and Alberta, 2,665,000 acres. Barley: Manitoba, 715,000; Saskatchewan, 663,500, and Alberta, 467,000 acres.

Nearly all the Provinces have considerably increased their acreage under Spring wheat; Nova Scotia by 11 per cent; New Brunswick, 44 per cent; Quebec, 24 per cent; Ontario, 45 per cent; Manitoba, 7 per cent; Saskatchewan, 11½ per cent; Alberta, 16 per cent, and British Columbia, 6 per cent.

Oats also increased by percentages ranging from 1 per cent in Saskatchewan to 13 per cent in British Columbia, Manitoba showing no change.

According to the reports of crop reports, expressed numerically in percentage of the average yield of the last ten years, the condition of the principal grain crops was on May 31 as follows:

Fall wheat, 80 against 85 last year; Spring wheat, 101 against 93; all wheat, 100.5 against 92; rye, 95 against 97.

For other crops the condition on May 31 of this year, expressed in percentage of the decennial average, was: Peas and mixed grains, 103; hay and clover, 101; alfalfa, 97, and pastures, 100.

Ontario reports June 5 that timely rains with warm weather have favored the growth of all crops. Prospects are excellent for another good hay crop, and Spring grains never gave better promise at the beginning of June.

Saskatchewan reports, May 28, that rain and snow were general throughout the Province during the week, with the exception of some parts of Western Saskatchewan.

Alberta reports, June 10, that warmer weather has prevailed during the last week, with light local showers. Growth generally is coming along fairly fast.

Canadian Foresters' Success

OTTAWA, June 13.—A report on operations of the Canadian Forestry Corps overseas received by the Militia Department states that one company in France has made a record production of sawn lumber. In ten hours' sawing they turned out a total of 156,000 feet, board measurement, or 372 tons of 1-inch, 2-inch and 3-inch square-edged butted lumber. Logs sawn numbered 342.

CANADIAN CORPS IN GOOD FETTLE

General Sir Arthur Currie Says It Is in Better Condition Than Ever Before—Ready for Battle.

LONDON, June 13.—At a dinner given by Sir Edward Kemp, Canadian Minister of Militia Overseas, in honor of Premier Borden and his colleagues and many generals on leave from the front, General Currie made a remarkable impression in a fine speech.

"When we first came to England," declared General Currie, "we were not regarded as the finest soldiers in the world. We had many things unjustly said about us, with the consequence that Canadians went to France determined to prove for their own sake and for Canada's sake that Canadians were fit to take their place beside the veteran soldiers of the British army. I want to deny, however, that Canadian soldiers or overseas soldiers have been placed deliberately in the hottest parts of the line, but will say the temper of Canadian soldiers is that there is no position they are asked to take that they will not take.

"I never knew the Canadian corps to be in finer fighting fettle than now. The situation in France is serious; there is no use hiding it. I believe the truth has been hidden too long. The German has struck four mighty blows with success, and it is just a question how many blows we can afford to endure.

"Personally, I think that the great factor is that if we stop and fight the boche we can kill a sufficient number to make him sick. I believe this is the temper animating the whole army and I know we shall never take such a delight in killing him as when we next meet him. It comes to a question of who can stand killing the longest. Canadians in France are now more efficient than ever. We could not be in that position unless we were backed up by General Turner and the staff in England. There is a feeling of co-operation which never existed before and the better the liaison we have between France and England and Canada, the better it is for our fighting forces."

Sir Edward Kemp, in proposing the health of Premier Borden, said the ministers in Ottawa sometimes displayed a misconception of what was going on here and in France. The staff in England, however, were most desirous that every inquiry should be made as to what was done here. He was 3,000 miles from his base, and it was sometimes difficult for him to photograph in the minds of his colleagues in Ottawa the exact circumstances which ruled matters in England and France.

Sir Robert Borden, replying, said, amid laughter, there were times when the ministers in Ottawa would be very glad to be 3,000 miles away.

"There are men in the Canadian Government today," continued Sir Robert, "who had been strong political opponents for many years. I have been associated with them more than eight months now and I can truthfully say since the new Government was formed there has not been any other purpose or intention than a desire to do their duty to their country and to you who are fighting."

Lord Beaverbrook proposed the health of Premiers Stewart of Alberta, Martin of Saskatchewan and Norris of Manitoba.

OBJECTS TO TAX PLACED ON C.P.R.

Transportation Committee of Manufacturers' Association Says It Is Too Onerous—Chairman's Criticism.

MONTREAL, June 13.—The Federal Government has treated the C.P.R. in an iniquitous manner by its railroad policy, James A. Riordan, of Toronto, chairman of the transportation committee of the Canadian Manufacturers' Association, stated at the organization's convention this morning. Mr. Riordan made his statement while presenting the transportation committee's report. Mr. Riordan followed up his contention by claiming that the Government now has two railway cripples on its hands and is doing what it possibly can to create a third by levying heavy taxes upon the C.P.R. at a time when it is difficult and costly to get the supplies it needs. The Government was attempting to turn an asset into a liability.

The committee's report, dealing with the railroad situation, said the Government's order-in-council imposing special taxation on the C.P.R., after the 15 per cent freight rate increase was granted by the Dominion Railway Commission, deprived that road of an improved revenue that might result from the increase in rates.

The report dealing with the representations that the committee made to the Department of Trade and Commerce in respect to requisition of steamships in the service from Canada to South Africa, and from Canada to Australia and New Zealand, suggested that the association express its appreciation of the determination of the Government to build a Canadian merchant marine.

Discussing the formation of the Canadian Railway Association for National Defence, the report says it relieved the problem of traffic congestion and car shortage very materially.

GERMANS STARVING AS WAR GOES ON

PARIS, June 13.—Germany, although attacking on the Western front, is starving, says The Echo de Paris. An article appearing in The Berlin Arbeiter Zeitung relates the details of six children starving to death in an orphanage at Zenfort, Thurinigia.

The orphanage was found to have been ransacked by its starving inmates, and the physicians who visited the place found several of the children sheer skeletons.

Professor Franz Hein, a widely known economist, writing in the Dayerischer Zeitung, of Munich, warns the Germans that the coming weeks will be harder than any that have passed, and professes to foresee a general paralysis in the supply of wheat.

SUBSTITUTE FOUND FOR MOTHER'S MILK

CHICAGO, June 13.—Discovery of "S.M.A.," a substitute for mother's milk, was announced at yesterday's session of the American Medical Association section of children's diseases by Dr. Henry J. Gerstedberger, of Cleveland, the discoverer.

Dr. Gerstedberger said the name of the food was "Synthetic Milk Adapted" shortened to "S.M.A.," and that it "could be made a factor of economic importance."

The food, it was asserted, was fed to 311 infants, with 95 per cent good results.

The Fuel Administrator is urging consumers to take advantage of present conditions and prices and lay in Winter fuel now.

The consumer who buys coal now can have the coal they desire. Next Winter when there will be an unusually heavy demand from the "essential" war industries and the industries that have been converted from oil to coal, the consumer and the dealer who had storage space and did not use it or could have provided for coal and did not must take their place at the end of the fuel line.

THE CITY AND DISTRICT IN BRIEF

Raffle Drawn—The winner of the pen-painted tray, raffled by the Red, White and Blue Knitting Club, was won by Mrs. Murdoch, 1010 Sutlej Street. The winning ticket was 110.

Lantern Lecture on Japan—Rev. Cooper Robinson will lecture on Japan and show lantern slides to illustrate his work at Christ Church Cathedral schoolroom, commencing at 8 o'clock tonight. Admission free.

Court of Appeal—The Court of Appeal has dismissed the appeal from the decision of Judge Macaulay, of Dawson, in the case of Briar vs. Purden, the appeal being from an order of the judge in connection with a mortgage foreclosure. An appeal by Magistrate Stewart, of Ladysmith, from an order to return fines paid on conviction by him of parties in an opium selling case was allowed, Mr. Justice McPhillips dissenting.

Island Arts Club.—The Island Arts and Crafts Club has arranged that its rooms in the Union Bank Building shall be open every Saturday afternoon till further notice. Visitors and non-members may then enjoy the use of the club books by applying to the member in charge. Lists of the art books in the Provincial and Carnegie Libraries, besides other useful information, will be obtainable.

Gardeners to Hold Show—The Cottage Gardeners' Society of Ward 2, Saanich, have decided that they will repeat, during August or September, the successful show which they held last Summer, and a committee is now at work on the drafting of a prize list for the affair. A grant from the Council is expected, and in addition it is hoped that there will be a number of prizes offered by privite citizens.

Institute Addressed by Mrs. Perry—Mrs. A. A. Perry, of Winnipeg, addressed the members of the South Saanich Women's Institute and their friends last Saturday evening in the Temperance Hall, Keatings. She spoke of the problems confronting the Canadian women and women's franchise. Mrs. A. A. Perry was one time president of the Women's Civic League of Winnipeg. She was the guest of Mrs. G. Budd, "Wharfdale," Keatings, for the week end. Mr. D. Horth, of Victoria, opened the meeting with a vocal solo, which was very much appreciated. A social half hour was spent at the close of the address. Miss K. Budd rendered several piano selections to the enjoyment of all. The Institute will have their canning plant in full swing by the first of the week. Those wishing fruit canned should order through Miss Cruise, secretary; phone 20R Keatings.

Red Cross Presentation—A very successful entertainment was held last evening in the Foresters' Hall, under the management of juvenile courts attached to the Ancient Order of Foresters, the principal event of the evening being the presentation by Mr. F. W. Jones, chairman of the Red Cross Society, to the chief rangers of Courts Canada and Excelsior of the handsome trophy won by the juvenile courts for the best float in the 24th of May parade. The remaining part of the evening was taken up with a splendid musical programme given by the following: Mrs. Mitchell, piano selection; Bro. C. P. Askey, comic song; Bro. H. H. Hollins, recitation; Miss Askey and Bro. C. P. Askey, piano and violin duet; Miss E. C. Brown, Highland dance; Mrs. Clark, mandolin selection; Mr. J. A. Wilde, recitation; Mr. B. E. Lefevre, song; Bro. B. Cooper, concertina selection. Ice cream and cake and the National Anthem terminated a very enjoyable evening.

MR. F. PAULINE, SENR., DIES AT GREAT AGE

Funeral Will Take Place on Saturday Afternoon at 2:30 From Christ Church Cathedral

Mr. Frederick Pauline, sr., died at his home, 2564 Heron Street yesterday morning, in his 87th year, after having resided in British Columbia for the past thirty years.

In spite of his advanced age, Mr. Pauline retained his brilliant mental qualities to the last, and the progress of the war was a source of keenest interest to him owing to the many members of his family who have gone on active service, these being his fourth son, H. W. Pauline, overseas; his grandson, Sergt. F. C. Pauline, wounded, now in hospital at Birmingham; George Pauline sr., Stanley Gardiner, Norman Pauline, George Rutherford, W. H. Pauline, at the front; Wilfred Pauline, at Seaford, and the late Victor R. Pauline, R.F.C., killed May 8, 1918, at Amiens.

He is survived by his widow and eleven children, including Mr. F. A. Pauline, M.P.P., 940 Foul Bay Road; Mr. George Pauline, 3112 Glasgow Avenue; Mr. H. W. Pauline, overseas; Mrs. W. S. Goodwin, Rochester, N.Y.; Mrs. C. F. Gardiner, 1013 Fairfield Road; Mrs. G. A. Gardiner, 1016 Pakington Street; Mrs. (Capt.) Lapraik, Seattle; Mrs. H. N. Short, Rudlin Street; Mrs. R. H. Williams, Vancouver, B.C.; Mr. J. A. Pauline, Bella Bella; Mrs. D. L. Hickey, Seattle; also thirty-two grandchildren and five great grandchildren.

The funeral will be held tomorrow afternoon at 2:30 o'clock from the B.C. Funeral Chapel, to Christ Church Cathedral, where the Very Rev. Dean Quainton will perform the last rites. Interment will be in the Ross Bay Cemetery.

APPOINTED ADJUTANT TO NO. 6, R.C.R.

Capt. George Chaffey, M.C., a Returned Soldier Who Went Overseas With 48th Battalion.

Capt. George Chaffey, M.C., has been appointed as adjutant to No. 6, R.C.R. The announcement came through the routine orders received yesterday at military headquarters from Ottawa.

Capt. Chaffey is a returned officer, having gone overseas from Victoria in the early Summer of 1915 with the 48th Battalion.

PREMIER ON MAINLAND

Will Spend Week-End Delving Into P.G.E. Matters and Making Short Inspection of Road.

Premier Oliver left last night for the Mainland in connection with P.G.E. affairs, and will be absent over the week end. It is his intention to make a trip over a portion of the P.G.E. line, and to personally deal with a number of matters connected therewith, especially in connection with the operations of the road along the north shore.

Hon. Dr. King, Minister of Public Works, spent yesterday in Vancouver, where he conferred with the Workmen's Compensation Board in respect to bringing certain members of the Public Works staff under the operation of the Act, and also discussed matters arising in connection with the Greater Vancouver Sewerage Board.

COMING WEST

Major-General Fotheringham, C.M.G., Director-General of Medical Services, Expected in Victoria.

Major-General John T. Fotheringham, C.M.G., Director-General of Medical Services in Canada, is expected here some time in the early part of July. He was Assistant-Director of Medical Services to the 2nd Division in France from 1915 to 1917. He was given the C.M.G. in 1916, and in June of that year was mentioned in dispatches. He will come West over the Grand Trunk Pacific system via Prince Rupert.

IS SURVIVOR OF NOTABLE FIGHT

Pte. A. Hamilton Returns After Nine Months in Hospital Through Wound Sustained on Lens Front.

Pte. Alexander Hamilton, who was wounded on August 21, 1917, during the memorable fight between the Canadians and the Prussian Guirds in No Man's Land on the Lens front, has returned to Victoria after spending nine months in English hospitals. He sustained a gunshot wound in the thigh and stomach.

The engagement in which he became a casualty was one of the most spectacular of the war, and resolved itself into some of the toughest fighting the Canadians have experienced. Shortly after the capture of Hill 70 a local attack in force was decided upon. On the morning of August 21 the Canadians were to attack at 4:30 a.m., but just before the time they were to go over the Germans began a counter-attack. The Prussian Guards and the Canadians met in No Man's Land and a struggle lasting for hours ensued. Bombs and bayonets were used, while all the time the barrage on both sides was playing over the battlefield. The Canadians finally succeeded in hurling the Prussians, who put up a stubborn fight, out of their lines, and then went on and got into the enemy's line. They held the German line all day and withdrew at night. At close fighting the Canadians proved superior, but the enemy used his stick bombs with deadly effect. He, however, suffered heavy casualties and the affair was a notable success for the Canadians. It was remarkable, because it was the first time in this war when an attack and counter-attack were delivered at the same time and when the S.O.S. signals were sent up simultaneously on both sides.

Pte. Hamilton was wounded at 5 a.m., half an hour after the fight commenced. It took him five and a half hours to crawl to the dressing station at St. Pierre, which was only a mile and a quarter distant from the scene of the engagement. He was removed to No. 4 Canadian General Hospital, where he spent 10 days, and was then sent on to Reading, where he remained until January, going from thence to Taplow Hospital. He underwent three operations.

Pte. Hamilton left here with the 88th Battalion, and, following his arrival in England, was assigned to duty in the audit department of the pay office. After five months there, although 45 years of age, he volunteered for service at the front and was sent with a draft to reinforce the 29th Battalion. The nature of his injuries has precluded all possibility of further service.

SAYS CANADA'S NEED IS MORE CHILDREN

Dr. S. F. Tolmie Calls Attention to Increase in Birthrate of Foreign Element in Address to Board of Trade.

"There is one more campaign that this country can stand, and that is a campaign for more children," declared Dr. S. F. Tolmie, M.P., in addressing the Board of Trade last night.

"This is a country of broad acres, and there is plenty of room. Canada must see that her population of the future is 100 per cent Canadian and that the Canadian-born children keep pace with the foreign element."

Dr. Tolmie stated that half the birthrate increase in all Canada was confined to the Province of Quebec, and he declared that the foreigners who had settled in the Prairies and other Western localities were increasing their number at a much faster rate than those of British blood.

"Where will this condition lead us to?" he asked. "It is time Canada awoke to the situation, and when the war is over it must be her watchward to see that the immigrants that come here to live are good, loyal Canadians, who are willing to support their country through thick and thin. And the sooner we get one language for the whole of Canada the better it will be."

Advertise Victoria

Dr. Tolmie appealed to Victorians to make their city known to the world by systematic publicity to its natural advantages. He claimed that there were many strange and erroneous impressions in the East as to just where and what Victoria was. He pointed to the keen competition among other Western cities and declared that this city must toe the mark all the time if it intended to hold its own in the future. He advanced the proposal that a committee of three live members of the Board of Trade go into the whole situation as it confronted Victoria, and after diagnosing the case, offer the remedy. After all, Victoria was only what its citizens made of it.

Dr. Tolmie also dwelt upon the C.N. R. and Johnson Street bridge issues briefly.

At the conclusion of his remarks Mayor Todd stated that the city was always ready to negotiate with regard to the Johnson Street bridge, and that it had ever shown readiness to lay its cards on the table. This was a time for Victoria to stand fast and insist on its rights.

Mr. George Bell, M.P.P., also stated that the city had always been willing to go half-way in effecting a settlement, and he commended Mayor Todd for the part he played in the various negotiations.

A vote of thanks to Dr. Tolmie was passed on motion of Mr. J. L. Beckwith and Mr. W. H. P. Sweeney.

GARDEN CONTEST CLOSES TOMORROW

The prize sub-committee of the city's Increased Production Committee has at its disposal about $300 to distribute among Victoria gardeners who enter the war-garden contest now in progress.

There are four divisions—home garden, vacant lot, children's and professional, and the first prize in each is $15. If there are sufficient entries there will be nine other prizes for each class, giving a wide range of opportunity for cultivators. The entries must be in by tomorrow at 1 o'clock, and are to be made to Mr. S. W. Bradley, assistant city clerk, at the City Hall.

MILITARY NOTES

Lieut. William Scott, a former partner with the late Judge Schultz in the firm of Schultz, Goodstone & Scott, Vancouver, is reported missing. Hopes are expressed that he may yet be heard of in a prison camp, as he had twice previously survived bad crashes during his career as an aviator. As Mr. W. A. Scott, a member of the Vancouver bar, he earned his commission as lieutenant at Work Point Barracks, and in order to get the more quickly overseas went to England in charge of a forestry detachment. In England he transferred to the Royal Flying Corps and won his wings. His first flight over the German lines was on March 21, the day of the opening of the big offensive, and he had been in continuous service until his last recorded flight last week.

VICTORIA GIRL WINS PROVINCIAL MEDAL

Miss A. Johnson Awarded Grand Gold Medal Presented by Provincial W.C.T.U. at Conclusion of Convention.

Miss A. Johnson, of Victoria West, was awarded the W.C.T.U. grand gold medal for elocutionary expression at the oratorical contest held last evening under the auspices of the Provincial Union at the First Congregational Church. Mrs. H. A. Edgett, Provincial superintendent of the W.C.T.U. contest department, made the presentation at the close of the excellent programme given by a number of accomplished artists. There was a large attendance, the church being well filled with members, visiting delegates and friends of the four contestants. Capt. J. W. Gidley conducted the contest and the judges were Mrs. Edgett, Miss Lawson and Mr. Collis.

Miss Johnson's selection, "Britannia to the Rescue," a recitative review of the invasion and subsequent occupation of "little Belgium," thrilled the audience, who felt rather than heard of the suffering of the brave people. Mrs. T. Bailey interpreted with excellent expression the alternate grief and rage of an Indian woman, bereft of her father, "The Battle Chief," in one of Pauline Johnson's memorable poems. Miss C. Davies gave appealing expression to her number, "Jean Deprez," from Robert Service's collection, and Pte. Victor Leigh's recitation, "Lasca," merited the hearty applause of the appreciative audience.

In the intervals between the dramatic readings vocal numbers were rendered by several talented soloists, and contributed much to the pleasure of the evening. Miss Violet Watson opened the programme with Francis Alletsen's song "There's a Land," and Miss Kate Ede rendered Sullivan's "Orpheus With His Lute" and "Happy Day." Mrs. E. F. Gould sang Lehman's "Good Morning, Brother Sunshine" and as an encore Albers' "Only a Year Ago. Mrs. S. C. Thomson, singing in the place of an artist detained from attending, rendered "Where My Caravan Has Rested." Much entertainment was furnished by the humorous songs of the Emanuel Baptist Church male choir of nine voices, numbering Messrs. R. Jones, Pte. W. Jones, C. Clapham, Pte. Potts, R. Westcott, N. Sheepwash, M. Parfitt, F. Parfitt and A. T. Cairns. Their first number was a Southern melody, "Massa's in the Cold, Cold Ground," with an imitation of the banjo in the vocal accompaniment, and in response to an insistent encore they sang "Four Jolly Smiths."

An interesting feature of the evening concluding the business of the convention was the presentation of the banner awarded to the Union gaining the greatest percentage in membership increase during the preceding year. This has been awarded to the Summerland Union and will be presented by Mrs. Dorrell, who represented the Ashcroft branch at the conference. Mrs. G. Lanning, corresponding secretary, announced the award, and Mrs. A. Livingstone, of the Victoria W.C.T.U., made the presentation.

COLONEL WRITES FLATTERING LETTER

Mrs. A. M. Greig Hears of Her Son's Decoration With Military Cross—Lieut. John Greig Is With R.F.A.

LIEUT. JOHN GREIG

Mrs. A. M. Greig, of 1048 Craigdarroch Road, has received a cable informing her that her son, Lieut. John Greig, has been awarded the Military Cross. As usual, only the bare facts, without details or reasons for the decoration, is announced. Lieut. Greig's letters of the past three or four months indicate that he has been in the thick of the heaviest German attacks around Kemmel and Passchendaele. He was wounded about the end of April while fighting near the former place, receiving only a slight shoulder injury from shrapnel, which did not make it necessary at first for him to leave his unit. However, the wound got worse, but he remained on duty until the M.O. decided he must go to a casualty clearing station. From subsequent complications he was invalided to Boulogne and thence to London, where he now is, but he expects to get back to France and rejoin the 156th Brigade, R.F.A., in about a month or so.

In addition to hearing the good news of her son's decoration with the Military Cross, Mrs. Greig is also in receipt of a most flattering letter from the colonel in command of the 156th Brigade. This she prizes quite as much as her son probably does his M.C.

Lieut. Greig lived almost all his life in Victoria, and is well known to every athlete of the last ten years' standing. He was studying law with Crease & Crease when he enlisted, leaving here with B Section, No. 1 Field Ambulance. After some months in the firing line he returned to England from France, having been recommended for a commission, and after his course of training he was attached to the R.F.A.

OBITUARY NOTICES

The funeral of Mrs. Effie Williams, whose death occurred on June 10 at the Royal Jubilee Hospital, took place yesterday afternoon at 3:30 o'clock from the Sands Funeral Chapel. Rev. A. B. Osterhout officiated and the pallbearers were: Messrs. David Doidge, H. O. Doidge, Stanley Doidge and J. Hinley.

The death occurred yesterday at the Jubilee Hospital, after a short illness, of Miss Alice Amelia Boorman, of 1328 Balmoral Street. Miss Boorman had for several years past been sewing instructor in the local city schools, being engaged in her work up to as late as Tuesday of this week, and her sudden demise has come as a great shock to her many friends and to the teachers and pupils with whom she has been in contact. A native of London, England, Miss Boorman came to this city twenty-two years ago. She is survived by her mother, two sisters and two brothers. The funeral will take place from the family residence on Monday at 3 p.m., where service will be conducted by the Rev. Charles Croucher.

The funeral of Mrs. Mary Galbraith will take place this afternoon from the late residence, 428 Helmcken Street, service being taken by the Rev. P. C. Parker.

DANCE AT HOSPITAL FOR BENEFIT FUND

Event Is to Take Place Tonight at Jubilee Nurses' Home, Miss Thain to Provide Musical Programme.

Not much publicity has been given to the fact that tonight at the Nurses' Home, Jubilee Hospital, kindly lent for the occasion by the Hospital Board Directors, a dance is to be given in aid of the Sick Nurses' Benefit Fund. But a very gratifying number of tickets are already sold. The affair has been taken in hand by the Graduate Nurses' Association, and the festive touches which are usually added in preparation for such events have already been made and everything is in readiness for the enjoyable occasion.

Dancing is to commence at eight o'clock and will continue until midnight, Miss Thain providing the music. There will be refreshments served during the evening, and card-tables are being arranged for those who do not care to do "the light fantastic" continuously. All that is required to make the event a complete success is a big crowd, and with the tickets going at the reasonable price of fifty cents each this is being prepared for.

COLUMBIA THEATRE "For France," the fascinating film story being shown on the Columbia screen, gives a three-cornered tale of a French maiden, an American man, and a German man. The two men, of course, are in love with the maiden, when the outbreak of war upsets their normal course. It develops into a real war romance when the American is wounded in a gallant action near Mons and is nursed back to health by his French sweetheart.

PANTAGES THEATRE Not many of the present generation of theatre-goers remember the style of dancing revived by the Simpson and Dean Duo at Pantages this week. The pair do the old half-Apache Bowery dance of more than ten years ago as a strong climax to their act. The dance has all the grotesqueness of the Parisian folk dance, but also possesses the not so repulsive steps of the American two-step. Taylor's Jungle Lions are a big feature of this week's bill. They will give a special attraction for children on Saturday afternoon.

ROMANO THEATRE Herbert Rawlinson, in his new Bluebird feature, "Brace Up," did not follow all the advice of his director, Elmer Clifton, in one of the big scenes in the picture, which will be seen at the Romano Theatre today. During rehearsals, Clifton jumped from a balcony to show how he wanted it done, spraining his ankle in so doing. Rawlinson did the jump all right, but without getting the sprain.

VARIETY THEATRE "The Duchess of Doubt," the feature production to be seen at the Variety Theatre today, provides the star, Emmy Wehlen, with an opportunity to display her amazing versatility, and George D. Baker, the director, has arranged for her a wide variety of fascinating scenes. The star plays Clover Ames, who is a drudge for her aunt. Clover has to be "chief cook and bottle-washer," and screen patrons are treated to a sight of the exquisite Emmy Wehlen cooking flapjacks.

ROYAL VICTORIA According to the announcement of the Artcraft Film Corporation, "The Bluebird," the big Maeterlinck spectacle which is the attraction at the Royal Victoria Theatre again today and tomorrow, has established new records in film production, presenting the largest settings ever staged inside a studio, among them the Black Palace of Night, the Palace of Luxuries, the Cave of Miseries, the Azure Palace, Memoryland, and the Cathedral of Happiness. In each of these settings scenes are shown which would ordinarily constitute an elaborate feature photoplay.

ROTARIANS ADDRESSED BY BISHOP SCHOFIELD

"Significance of Service" Subject of Interesting Discourse—Send-off to Delegates to International Convention.

The meeting of the Rotary Club held yesterday was addressed by the Right Rev. Charles de Veber Schofield, Bishop of Columbia. He spoke on "The Significance of Service." In view of the fact that the delegates from the local club to the International Rotary Convention to be held at Kansas City, commencing the 24th instant, will leave the city before the next gathering of the members, recognition was taken of their going, together with certain facetious recommendations as to how they should conduct themselves in foreign parts in order to measure up to the full dignity of their commissions. These delegates are President J. D. O'Connell, Past President P. C. Abell, and Director E. J. Down. Director C. L. Armstrong, of the club, who has been charged by the Provincial Government to be its official representative at the convention, is already in the United States, and will meet the Coast delegations at Kansas City. The retiring committee on entertainment under the chairmanship of Mr. Edwin Tomlin was thanked by the president for the excellence of their work during the past three months. Mr. George McGregor is chairman of the new committee. Mr. Sol Berns, now appearing at Pantages, entertained with stories.

After referring to the difficulty of living abreast of the motto, "He profits most who serves best," owing to the necessity of having to constantly combat a very contrary and wrong thought in life to the effect that the giving of service must necessarily fall upon a certain designated class of individual, Bishop Schofield suggested that there was now a more hopeful sign of the universal application of the principle. This was being brought about by the war, he said. The war had created a conscience and a very earnest purpose among the peoples of the world who were the champions of right and best. The men who had gone to the battlefield were doing a great service to the whole world, and so had a great proportion of those remaining, in connection particularly with war work. All those services were piling up a great strength. Even to those who were inclined to put self first, there came times when they were moved to exert their fullest strength in the knowledge that by serving others they were doing the best for themselves. Often, he thought, the narrow view was the product more of the narrow outlook than pure selfish motives. That was where the ideals of such an organization as the Rotary Club might be expected to exert a broadening influence.

After all, he continued, the rendering of service made the giver think a little better, and what a thought it was to contemplate the possible day when service would be a universal effort rather than one confined to a few individuals. He concluded that, in present days, it was impossible to think too highly of the sphere of human life, and in helping oneself all would be benefited.

LADY DOUGLAS CHAPTER

Twenty-six members were present at the monthly meeting of the Lady Douglas Chapter on Tuesday afternoon. The regent, Mrs. R. B. McMicking, presided, and much routine business was accomplished. The meeting welcomed two new members into the Chapter.

Mrs. J. D. Gordon, convener of the Chapter's committee for military hospital comforts, gave a report of her work during the past month, gratefully acknowledging the donations received from friends interested in this line of service. At the conclusion of her report, the Chapter voted the usual monthly donation for continuing this work. Mrs. McIlree reported on the meeting of the Local Council of Women, and Mrs. Colin Cummins, reporting for the conservation of waste committee, made a strong appeal to the members for donations of tins of all kinds, especially biscuit, tea, and jam containers. Rags and old sacks would also be acceptable, she said, a ready sale being found for these articles.

Miss Sorby, wool convener, reported for the field comforts committee, stating that the members had handed in forty pairs of socks, four trench caps and two sweaters. She appealed for more knitters and asked that those members unable to knit could have the knitting done for them at a very reasonable charge. After hearing the financial statement submitted by Mrs. Stewart Williams, the chapter voted a donation of $25 to the Y.M.C.A. campaign fund.

Charlie Chaplin is to be seen on the Dominion screen today and tomorrow in one of his funniest comedies, "His Daredevil Queen" or "Mabel at the Wheel"

WILLOWS CAMP CHAPTER

The members of the Willows Camp Chapter, I.O.D.E., voted $35 towards purchasing a complete baseball outfit for the men at the front, also $10 to the field comforts fund for chocolate to be sent to France, and $2 toward prizes given to the cadets for their field day sports. A letter was read from Capt. Ross, thanking the Chapter for a consignment of socks sent to his regiment, and saying the soldiers greatly appreciated their thoughtfulness. Capt. Ross said: "They arrived in the nick of time," as the men had gone out for a day to enjoy "that luxury of luxuries, a bath."

Miss Litt-Smith addressed the meeting on the forthcoming registration of men and women, explaining very explicitly how it would be conducted, and asking for volunteers to assist in the work. In response to her request, a number of members volunteered their services for June 22.

One new member was received into the Chapter, one elected, and four proposed. It was decided that a fine of 25c should be imposed on members failing to turn in at least one pair of socks each month, and a prize will be given to the member turning in the largest number by October.

Cricket Meeting Tonight

The Colonist is asked to state that the meeting of the senior delegates which it was announced would be held on Saturday night at the Christ Church schoolroom will be held tonight instead. It was found that many of the delegates could not come on Saturday, and as the schoolroom is not available for tonight, arrangements have been made to hold the meeting in the Y.M.C.A. building this evening at 8:30.

WILL MAKE ATTEMPT TO LOWER RECORD

Worlds Champion Swimmers Will Compete Here in Effort to Make New Mark in Swimming Dash.

That Kahanamoku and the other swimming stars accompanying him on his big Red Cross tour will be seen in real competition here, and not merely in exhibition swimming is a certainty. With a view to ensuring this, the V. I. A. A. decided to offer a special cup, provided the swimmers were willing to make an attempt to break a world's record while here. Mr. W. J. Davies wrote manager Owen Merritt on the subject and has received his reply, which is wholly favorable, the swimmers undertaking to do as suggested.

At first it was thought that an attempt should be made to lower the 50 yard mark, but it is suggested by Merrick that either the 25 yards or 40 yards dash would be preferable, the reason being that the temperature of the water here is considerably lower than the swimmers are accustomed to in Hawaiian waters and there is a better chance of the mark for one of these shorter distances being lowered here. The 25 yard world's record is at present held by Clarence Lane, and on their present tour the swimmers are specializing in these short distance swims. The party coming here will comprise Merrick, manager; Kahanamoku, Clarence Lane, Kroeger and Cait, coach; the latter was forso the party may be truly described as a galaxy of stars.

In his letter Mr. Merrick confirms the date of June 27 for the big gala here, when Victorians will have the opportunity of seeing these world's champions and participating in the most noteworthy sporting event which has been brought off in Victoria for many a long day.

LACROSSE VETERANS TURN OUT IN FORCE

There was a full turn-out of the veteran lacrosse players at the Royal Athletic Park last night, and an excellent practice was held, the form of the old-timers improving rapidly at each meeting. The next practice will be held on Sunday morning at 10:30. Followers of the game might do worse than attend one or two of these practices and see for themselves that it is no idle boast that the veterans make when they say they are going to be there with all their old-time speed and pep when the time comes to show the present-day players some of the fine points of the game on June 22, when the big game takes place at the Royal Athletic Park for the benefit of the Comrades of the Great War.

CRICKET SELECTIONS

The following team will represent the Congos in their cricket match against the Willows Camp at Beacon Hill on Saturday: W. Speak (captain), R. B. Paten, J. Ferris, A. Booth, G. Austin, T. H. Worthington, J. Collett, E. R. Lock, H. Gardler, H. Scarff, and T. H. Mayne. Reserves, W. Sherman and G. Silburn.

The Victoria C. C. team against the Incogs will be as follows: H. A. Goward (captain), H. Middleton, F. Wright, E. Verrall, H. J. Robson, A. Foulds, J. W. York, G. Wells, W. H. Roberson, A. F. Mitchell and H. Lethaby.

Mr. Alcock Makes Arrangements to Instruct School Children in Swimming—Ladies' Club Will Help.

There will certainly be no excuse for the boys and girls of this city remaining ignorant of how to swim after this season. Facilities for learning the art are being multiplied. The V. I. A. A. is handling larger numbers of boys and girls under their scheme for giving them free swimming tuition, and now comes the announcement that Mr. R. Alcock has made arrangements for the school children to have the use of the B. C. Electric bath house, of which he is in charge, from 10 to 12 on Tuesday, Thursday and Saturday mornings. All children who would like to take advantage of this offer should leave their names at the bath house. Mr. Alcock will himself give instruction in the water and the ladies of the Victoria Ladies' Swimming Club have kindly consented to help him in teaching the children.

EARNS PROMOTION TO CAPTAIN'S RANK

Lieut. King, Adjutant at District Depot, Has Won Recognition by Able and Efficient Work—Late of 50th Gordons.

Promotion to captain's rank has been given Lieut. P. A. King, adjutant of "J" Unit from the time of its formation, and of the District Depot since "J" Unit was absorbed into that organization.

Capt. King was in the Orient at the outbreak of the war, and came here to enlist for service overseas. He joined the 50th Regiment, Gordon Highlanders, and offered himself to the 30th Battalion. But the medical board has consistently refused to pass him for active service, and he has perforce been compelled to "carry on" at home. His promotion is recognition of the ability he has shown in his work.

ASK GOVERNMENT FOR STATEMENT OF POLICY

Claimants for Compensation for Damage Sustained in Coal Mine Riots Urge That Claims Be Liquidated.

After waiting for over a year for some definite action to be taken by the Government, a deputation representing claimants for compensation for damage done to their property during the coal mine riots of 1913 was yesterday promised a definite statement as to what the Government proposes to do in respect to the claims. This answer will be forthcoming in ten days.

The deputation, which was composed of Messrs. W. Fraser, D. Gourlay, S. Thomson and others, all claimants, and was accompanied by Mr. H. A. MacLean, K.C., Victoria, as counsel, waited upon the Provincial Executive Council yesterday morning, and for two hours their request for action was discussed, the promise of immediate decision by the Government being given.

The report of Mr. Justice Gregory, who was appointed in 1916 as Commissioner to investigate all claims for damage to property done during the riots in 1913, has been in the hands of the Government since early last year. The investigation was instituted by the late Conservative administration, and sittings were held by the Commissioner at Nanaimo, Ladysmith and Victoria. Claims to the aggregate amount of over $350,000 were submitted, and the Commissioner's report to the Government found that claims to the amount of $57,000 were well founded.

Last year a number of claimants whose cases were reported by Mr. Justice Gregory as of merit applied to the Government for payment, but nothing was forthcoming. Now they are again seeking to have the Government act upon the basis approved by the Commissioner's report.

REGISTRATION IS GOING AHEAD WELL

Preparatory Details in Readiness for Getting Census of Man and Woman Power on June 22 in Hand.

National registration is reported to be proceeding in good shape, and the various city officials who have anything to do with the matter are getting the necessary advertising and preparatory work done in readiness for June 22.

In conversation with a reporter, Mr. Sydney Child, District Registrar for Oak Bay and Saanich Municipalities, stated that the organization was proceeding in a very satisfactory way, all those approached being most patriotic in their offers of voluntary assistance in this national undertaking, as well as the school trustees kindly giving permission to use such of the public schools for registration work that were required.

So far as Saanich Municipality is concerned, the voluntary assistance being offered will be sufficient to carry on the work, but in Oak Bay Municipality, owing to the rather late date of the Registrar's appointment, many of those willing to assist have promised to help elsewhere on registration day, and in consequence any other offers of assistance for this district would be greatly appreciated.

Erect Big Tower

GETTING SIX PARCELS FROM RED CROSS

So Writes Vancouver Boy Who Has Been in German Prison Camp Since April of 1915—Support Prisoners Fund.

A prisoner of war in Germany, who used in peace time to live in Vancouver, and who was captured at Langemarck, April, 1915, writes to his parents as follows:

"I understand you want to send me a private parcel of food. Now please don't bother or worry. The Canadian Red Cross supply us with all we need. I am getting six parcels regularly per month. When people travel about a lot they don't want to collect a lot of junk. I am keeping very well indeed, so please don't worry. We live from day to day, and this can't last for ever.

"At present I am working with an educational party on the practical side."

It might be added that this letter was written on March 8 and received here on June 10 by his relatives.

In a former letter the writer states that "he understands that A—— (one of his own Christian names) is working at a very hot trade." It is surmised that he was at that time working either as a fireman or else as a miner.

It is left to our readers to surmise just what is meant in his last letter regarding his present employment. His parents are mystified.

It also shows that the Red Cross parcels are reaching their destinations in some cases at least, and that the public cannot do better than support their prisoners-of-war fund.

PRESBYTERIAN ASSEMBLY CLOSES

Forty-Fourth Meeting Finishes Business and Is Dissolved—Moderator Question Is Sent Down to Presbyteries.

LONDON, Ont., June 13.—With this afternoon's session the forty-fourth General Assembly of the Presbyterian Church in Canada finished its labors and dissolved, to meet again in June, 1919, at St. Paul's Church, Hamilton, Ont.

The Assembly accepted the resignation of Rev. Dr. Shearer from the secretaryship of social service, owing to his acceptance of the position of secretary of the Social Service Council of Canada, but deferred dealing with the question of the appointment of a successor, or the proposed creation of a new position of general superintendent of home missions and social service, for which the name of Rev. Mr. McGregor of London, was put forward.

The discussion led to a heated argument, in which home mission superintendents were accused of being dictators, and as strongly defended from the charges.

The question of throwing the moderatorships of the assembly and synods open to elders as well as ministers was sent down to the presbyteries for consideration.

The receipt of a communication from the secretary regarding the proclaiming of June 30 as a day of prayer and humiliation, led to the introduction of the suggestion of prayers for our Allies by Rev. James Taylor, in which the venerable clerk of the assembly, Rev. Mr. Campbell of Montreal, assured the members that he prayed for the enemy "that he may be brought to a sane frame of mind."

The board of education was instructed to formulate a policy regarding secondary education, to report to the next assembly. The resolution in favor of religious instruction in schools was withdrawn.

Rev. Dr. Grant of Toronto, Home Mission Secretary, was appointed the convener of a national service commission to take up the returned soldier problem, and a committee of 50 was appointed to devise the work of the forward movement.

FRENCH TRAWLER HAS DISTINCTION

Little Patrol Boat Is Decorated Second Time for Aiding British Transport and Destroying Submarine.

PARIS, June 1.—(Correspondence of the Associated Press)—For the second time within six months the valiant little French trawler patrol boat Albatross II. has been cited in general orders for gallant conduct, and now is entitled to display the coveted "aiguillettes" or cordon of the War Cross. The Albatross earned this second distinction for sticking gamely by a British transport that had been twice torpedoed in the Mediterranean, and for fighting off and probably sinking a German submarine. The fight occurred on March 23, 1918, but the award has just been announced. The trawler's first citation was earned on October 13, 1917, for escorting to port a torpedoed steamer.

In the latest incident the British steamer Schadwell, convoyed by the small Italian cruiser Partenote, was attacked by a submarine early on the morning of March 23. Though torpedoed, the Britisher remained afloat while the partenote remained on guard nearby. A wireless call for help was sent and the Albatross answered.

As the French trawler came on the scene the submarine appeared and again torpedoed the British steamer er. The Partenote and the trawler fired on the submarine which submerged. It again reappeared shortly afterwards, and prepared for a third attack on the Schadwell.

This time the submarine succeeded in sinking, not the Schadwell, but the Italian cruiser. Before the Partenote sank, the Albatross, though busy saving the crew of 115, managed to land a shot so near the submarine that oil and wood wreckage came to the surface, tacit evidence of the raider's destruction.

With the submarine disposed of, the Albatross stood by the British vessel until other aid arrived, when the Britisher was towed to an African port and the Albatross returned to France.

Women Praise Lydia E. Pinkham's Vegetable Compound for Health Restored.

In almost every neighborhood in America are women who have tried this standard remedy for female ills and know its worth.

Athol, Mass.—"Lydia E. Pinkham's Vegetable Compound has done me a world of good. I suffered from a weakness and a great deal of pain every month and nothing brought me any relief until I tried this famous medicine. I am a different woman since I took it and want others who suffer to know about it."—Mrs. ARTHUR LAWSON, 559 Cottage St., Athol, Mass.

San Francisco, Cal.—"I was in a very weak nervous condition, having suffered terribly from a female trouble for over five years. I had taken all kinds of medicine and had many different doctors and they all said I would have to be operated on, but Lydia E. Pinkham's Vegetable Compound cured me entirely and now I am a strong well woman."—Mrs. H. ROSSKAMP, 1447 Devisadero St., San Francisco, Cal.

For special advice in regard to such ailments write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its many years experience is at your service.

TEUTONS CARRY ON THEIR NEGOTIATIONS

AMSTERDAM, June 13.—An official statement issued today by the German Government referring to the visit to Berlin of Baron Burian, the Austro-Hungarian Foreign Minister, says he had an opportunity of having a detailed discussion with the leading statesmen of Germany on all the problems at present prominent. The official message adds:

"The spirit of mutual friendly confidence which characterizes the negotiations justified the expectation that when, as agreed upon, further negotiations shortly take place, the questions under discussion would be further elucidated and will finally be solved in a manner satisfactory to all."

POPE BENEDICT ISSUES MESSAGE

Laments Horrors of War and Protests Against "Insidious Campaign of Calumnies"—Question of Crimes.

ROME, June 13.—The Osservatore Romano, the Vatican organ, publishes a papal autograph sent in answer to an address received by the Pontiff from the episcopate of Lombardy.

The Pope complains of the sad period the war is going through, and also of attacks from "the enemies of religion on the supreme authority of Jesus Christ."

He adds that he is greatly afflicted "not only by the indescribable horrors of this war, which is without parallel in the history of the world, and threatens to drag poor Europe to the bottom of an abyss, but also by an insidious and skilful campaign of calumnies and hatred against the person of the Pontiff and his work."

The Pope, in a recapitaulation of his actions since the beginning of the war, says that his efforts to bring about peace have been misjudged and misinterpreted, even his silence about this or that crime being caluminously interpreted, his critics not admitting that "in the present uncertainty of this blaze of passions, it is impossible to inflict condemnation for each crime while all are included in a condemnation pronounced according to the general principle."

The Pontiff regrets that such a campaign has been conducted also against the clergy and Catholics by spreading the seeds of discord among various classes. The autograph ends with a protest denouncing the campaign not only to the faithful but to all honest people, wherever they happen to be, and a reaffirmation that it is the Pope's duty to defend the sanctity and honor of the church.

IRELAND SUPPLIES FOOD FOR BRITAIN

LONDON, June 13.—With a view to encouraging the Irish agriculturist by bringing home to him the part he is playing and can still further play in food production, and with the object of making better known to Great Britain the place Ireland is taking as a supplier of food for the British population and the Allied armies, the Department of Agriculture and Technical Instruction for Ireland has issued a statement which gives some remarkable facts and figures.

Ireland's production of foods, including especially her supply of food to Great Britain, has for several years yast been growing, until the supply from Ireland has become the most important in quantity and character arriving in Great Britain from any country in the world, according to the report.

SINN FEINERS FOUND AT ILLEGAL DRILL

TORONTO, June 13.—The Telegram's Belfast correspondent cables today:

"Yesterday at Dundrum, Tipperary, eight Sinn Feiners charged with illegally drilling at Cappawhite and Hollowhead, Tipperary, were sentenced to from two to four months' imprisonment. Eight Sinn Feiners at Tuan, Galway, were sentenced to from 14 days to two months for similar offences. Traynor and Mooney, officers of the Avoca Sinn Fein Club, are under arrest for illegal drilling. Samuel O'Flaherty, head of the Donegal Sinn Feiners, was arrested yesterday at Strabane and brought to Dublin. Arrests are now made daily. Last night some Sinn Feiners were deported from Dublin to England.

"Fifteen months ago Chief Secretary Duke established a national service, with a section for women at Dublin. Costly premises were taken at Stephen's Green, and well-paid officials appointed, one at £1,500 a year. The men's section has done little. The women's section was practically boycotted, and apart from slight harvest service last year was a costly farce. This is how Southern Ireland is helping to win the war.'

POLES ARE ANGERED BY SECRET TREATY

AMSTERDAM, June 13.—According to the Weser Zeitung's Vienna correspondent, during a meeting of the Parliamentary committee at Polish Club the existence was disclosed of a secret treaty with the Ukraine in which the Austrian Government agreed on the division of Galicia by the end of July at the latest.

The dispatch says that the Austrian Government's attitude on the Polish question was sharply criticized. It was charged with not having fulfilled a single Polish demand.

Other German newspapers assert that the resolutions passed by the committee, one of which demanded the severance of relations with the Government, were directed against German national and political interests, and render questionable a favorable issue for the old negotiations aiming at a rapprochement between the Germans and the Poles.

WE INVITE EVERY MAN AND WOMAN HERE

Every person in this city and vicinity who is run down, worn out, tired all the time, without appetite, or suffering from catarrh, head noises or deafness caused by catarrh, to try the wonderful English formula

PARMINT
(Double Strength)

What it has done for others it will do for you

This is an invitation no man or woman can afford to ignore. We will tell you why. We are going to give you a wonderful discovery that users say has done wonders in building them up, driving catarrhal poisons from the system, relieving head noises caused by catarrh, revitalizing the entire system and putting the old ambition and pep into your body.

How can we do this? We will tell you. We have obtained from England, a wonderful formula for enriching and purifying the blood, for putting the system in shape so that it can perform its proper functions, a scientific combination that does just one thing but does it remarkably well.

Users tell how this treatment has put them back on their feet and made them feel like a two year old; tell how it has driven catarrh from their system, relieved head noises caused by catarrh, overcome catarrhal deafness; and in many instances in so short a time the sufferer has been amazed. This new treatment that has proved such a boon to worn out, run down, overworked, catarrhal men and women is called PARMINT. Don't forget the name, P-A-R-M-I-N-T. Nothing so good has ever been discovered before.

No appetite, tired and discouraged.

Men who were constantly hawking and spitting, with foul breath, dull, watery eyes, tired, worn out feeling, have, by their own testimony been able to enjoy the pleasures of living; been betterfitted to fight life's battle, as never before for years, through this wonderful tonic agent Parmint.

If you want to get up in the morning feeling fit, no dark brown taste, no dull headaches, full of ambition and fire, with feet light and active instead of weighing a ton, get a bottle of Parmint, double strength and mix it with a little sugar and water as directed. Take a spoonful four times a day. By the time half a bottle is gone you will be astonished at its power and will bless the day you began taking it.

Parmint, double strength, is put up in a concentrated form for economy and convenience. The small 1 ounce bottle is sufficient to make up a full half pint of medicine ready to take. Any druggist in Canada can supply you or send 75c to the National Laboratories, 76 Antoine St., Montreal, and you will receive a bottle by return of the post in a plain sealed package. There is nothing better.

CAUTION—Parmint is a blood corrector and tonic. It is not a specific for blood poisoning. If you have a deep seated systemic blood disease Parmint is not recommended for you.

URGE COMPLETION OF C.N.P. ROAD

Board of Trade Takes Action Following Premier's Address Last Night—Steel Rails Declared Available.

After listening to addresses from Premier John Oliver and Dr. S. F. Tolmie relative to the C.N.R. situation, the Board of Trade last night passed a resolution calling on the Federal Government to hasten the completion of the road on this Island.

Mr. W. A. Jameson, vice-president of the Board of Trade, proposed the resolution, which was seconded by Mayor Todd. The text ran as follows:

"Whereas in the period, particularly in the years 1910-13 inclusive, definite representations were made to the citizens of the City of Victoria by the then Provincial Government that the C.N.P. Railway on the Island would be rushed to completion;

"And whereas a great deal of the permanent improvements by way of roads, buildings, etc., were undertaken in the city of Victoria and its adjacent districts and much capital invested in agricultural lands in the vicinity in anticipation of the development that would take place on Vancouver Island following the construction and operation of this line of railway;

"And whereas the failure to construct the line is a serious loss and injury to the city of Victoria;

"And whereas the completion of the road would bring a number of settled agricultural communities into direct communication with this city;

"And whereas the completion of the line would be of immense help in getting out aerial spruce and timbers for ship construction and other war purposes;

"And whereas the construction of the line is essential to the progress of the city of Victoria and Vancouver Island as a whole;

"And whereas there is now lying at the city of Vancouver large quantities of rails suitable for the construction of the said line;

"And whereas this meeting of the Board of Trade, having heard the explanations of the Hon. John Oliver, Premier of British Columbia, and of Dr. Tolmie, our representative in the House of Commons at Ottawa, do fully endorse the efforts of the beforementioned representatives of the people of British Columbia;

"Therefore, be is resolved that this Board of Trade do strongly and earnestly urge upon the Dominion Government the completion of the road, especially as far as some of the great timber areas, at the earliest possible date, and that copies of this resolution be forwarded to the Hon. Sir Robert Borden, Hon. Dr. J. D. Reid, Hon. F. B. Carvell and the Hon. J. A. Calder."

VETERANS' REVUE TO BE TOP-NOTCHER

Promoters of Vaudeville for Hospital Recreation Fund Aiming at Lofty Goal—Many Big Features.

Victorians have already set a high mark in vaudeville production, but those who are behind the revnue in aid of the Esquimalt Hospital Recreation Fund are determined to go one better and present on Monday and Tuesday, the 24th and 25th, at Pantages, something that will hang up a new record for variety and interest. They want it to be an entertainment de luxe, and the way they are going about their task indicates their hopes will not fail.

The first part of the performance will be handled under the direction of Mrs. R. H. Pooley, who has secured the services of such talented favorites as Miss Eva Hart, Mrs. D. B. McConnan, Miss Lillian Haggerty, Miss Mamie Fraser and Miss Holden, who will be seen in an assortment of distinctive features.

They will be assisted by a bevy of pretty dancing girls, who are now rehearsing under Mrs. L. T. Davis, and who are expected to make a decided hit.

The second half of the programme will be managed by Corpl. Lee, who has written and will produce a clever and amusing farce entitled "The Wrong O'Riley." The plot bristles with complex situations, and the funny dialogue ought to be a mirth-producer among those who have one or more laughs left in them. Corpl. Lee is taking the title role himself, and will be assisted by Mrs. D. B. McConnan, Mrs. B. Schwengers, C. S. M. Barnes, Sergt. King and the "Mysterious Baby Dorothy," whose identity the audience is left to guess.

The proceeds derived from the last performance given by the Ladies' Musical Club in aid of the Recretation Fund did much to brighten the days of the returned boys convalescing at Esquimalt. A splendid tennis court has been made and fully equipped for those that can indulge in the more strenuous games, while those that are not so fortunate may be seen playing a quiet game of croquet or engaging in the even more peaceful pastime of fishing. But lots can be done yet to brighten their weary hours, and a full house at the vaudeville revue will be a long step in the right direction.

Lieut.-Col. J. S. Harvey will act as patron.

The box office will open on Saturday, June 22, at Pantages. Meanwhile, tickets are on sale in many of the downtown stores.

LEMON JUICE TAKES OFF TAN

Girls! Make bleaching lotion if skin is sunburned, tanned or freckled

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, shake well, and you have a quarter pint of the best freckle, sunburn and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles, sunburn, windburn and tan disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

APPOINTS BOARD TO SETTLE CITY WAGES

OTTAWA, June 13.—The Minister of Labor has appointed a board of conciliation to deal with the dispute between the City of Victoria and its employees. The application for the board was received originally from the employees, but was later concurred in by the city at a meeting of the council. The names of the members of the board will be given out by the department later.

"Fighting Parson" Given Post

TORONTO, June 13. — Sidney Lambert, pastor of the Methodist church at Parkland, Alta., the "Fighting Parson," the first combatant minister of the Canadian army to fight in the trenches, and who lost his leg at St. Eloi, has been appointed chaplain at Whitby military hospital with the rank of captain. Rev. Lambert left his church in November, 1915, and went with the men of his congregation with the 50th Calgary battalion overseas. An explosive bullet shattered his leg.

U.S. Government Promises Discipline for Slack Workers in Shipyards and Munition Plants—"Work or Fight."

BALTIMORE, Md., June 13.—Unless some 15,000 workers in shipyards, munitions plants and other industries engaged on Government work consent to work a full week instead of three or four days, as they have been doing at high wages, they will be sent to Camp Meade in batches to be put through daily drills at $30 a month and board. Federal officers are classifying the workers, and they have found many who are only working in a half-hearted manner to escape the draft.

WASHINGTON, June 13.—President Wilson has approved a nationwide compulsory work movement to supplement Provost-Marshal Gen. Crowder's "Work or Fight" regulations.

In a letter to Governor Harrington, of Maryland, made public here tonight, the President endorses adoption by other States of the Maryland compulsory work law, under which the "work or fight" principle is made applicable to all men between the ages of 18 and 50.

General Crowder also has approved the movement, and believes that it will not only give greater effect to his new regulations but will further aid the country in its task of winning the war by reaching men below and above the draft ages. Without some such law as proposed, either state or national, it was pointed out, men of draft age who cannot pass the physical requirements for active or limited military service cannot be made to engage in necessary occupations.

FEAR ECONOMIC WAR COMING WITH PEACE

AMSTERDAM, June 13. — (Via Reuter's Ottawa Agency.)—German fear of an economic war is reflected in an article in The North German Gazette by Edward Achetis, president of the Bremen Import Association, who says it is a mistake to suppose Germany can find a substitute for her former world economic position in a close union with countries east and southeast of the Central Powers, or that Germany can protect herself against an economic war by establishing a large number of monopolistic militant organizations. Germany's peace terms must therefore be such as to induce the Allies to abandon the idea of an economic war, he says.

TORONTO, June 13.—Ontario doctors who give too many prescriptions for liquor will be brought to time by the license commission. One Toronto man is said to have issued over six hundred such prescriptions in a month. The board thinks he has been too generous and will give him a chance to explain his policy in the police court.

CANADIAN CASUALTIES

OTTAWA, June 13.—There were eleven casualties in the list issued today. Two were officers and one Manitoba private. Of these one died of wounds, one reported missing and one prisoner of war. The list follows:

Infantry

(Missing)

Lieut. J. R. Zieman, Toronto.

(Prisoner of War)

Lieut. G. R. Long, Ottawa.

GERMANS GLAD TO SURRENDER

Taking of Four Hundred Prisoners Due to Accuracy of American Barrage—Officers Are Now Scarce.

WITH THE AMERICAN ARMY IN FRANCE, June 13.—(By Associated Press)—The excellence of the American artillery fire was largely responsible for the capture by American marines of approximately 400 prisoners in the fighting which resulted in the clearing out of the Belleau Wood, northwest of Chateau Thierry.

The Germans, who had been told to avoid capture because the Americans would torture them, started to run after the American machine gunners had made the wood untenable, but the artillery barrage was so perfect that the Germans were cut off from escape.

Among the prisoners are six officers, a major, a captain and four lieutenants. All were poorly clad, and some had pieces of bread tied to their uniforms with strings. The prisoners said they were glad to be captured, and several expressed a desire to go to the United States after the war to live.

All of Germany's plans, they added, called for ending the war next Fall. The prisoners were told, they said, that among the Americans were many negroes.

The scarcity of officers in the German army is shown by the fact that one of the prisoners, a first sergeant, commanded an entire company. He said this was a common thing now.

The barn in which the prisoners were confined today in the rear of the American lines held more prisoners of war than the United States has had in one building at any time in more than fifty years.

Comparative quiet prevailed along the Marne sector today.

OTTAWA, June 13. — Sir Thomas White has been invited again to visit Washington, where he will discuss further with Lord Reading, the British Ambassador, and the officials of the American Treasury Department, the exchange problems arising out of the war. The discussions will be a continuation of those which have already been held. The minister is leaving at once. Hon. A. K. Maclean will be acting minister during the absence of Sir Thomas.

WOMEN DEBATE LIVE QUESTIONS

National Council Deals With Admission to Legislatures—Attention Called to Scarcity of Trained Nurses.

BRANTFORD, Ont., June 13.—The National Council of Women today passed a vote of thanks to both Canadian Houses of Parliament on receiving a formal announcement from Ottawa that the Senate had passed the national franchise act. Authorization for the publication of "legal status" by Mrs. Edwards, provincial vice-president for Alberta, was given.

In view of the resolution of the Brantford council calling for the admission of women to the Ontario Provincial Legislature and municipal councils, the Toronto resolution along the same lines was withdrawn.

On the discussion of the resolution, Mrs. Macwilliams, of Manitoba, protested on the ground that this was a case of the Province interfering with national affairs. Mrs. Allen, Moose Jaw, and Mrs. Flora Dennison thought the weakness of the woman was their failure to adhere. Whatever affected the women of one Province affected all. The resolution was approved.

Reception committee reports took up the time of the national council this afternoon. In view of the lack of trained nurses, owing to war's demands, the council asked the young women of Canada to volunteer their services in the nursing profession. While an organization of women workers, the recommendation of the committee being that more attention be paid to this, it was decided to authorize a committee to take up this work.

It was expected that at this afternoon's session a resolution would be introduced calling for the concentration of aliens throughout the country, but this did not materialize, and it is thought that it will be brought up at a later time.

Miss Jean Gunn, president of the Canadian National Association of Trained Nurses, addressed the gathering on the shortage of trained nurses. This shortage was not found in the military hospitals at home or overseas. The nurses were all attracted to the military service, and the salary paid was larger than that paid for similar work at home. For these reasons all nurses needed for active service were procurable. For these reasons also the shortage had not been brought to the attention of the Government by the military authorities.

PREMIER URGES UNITED STAND

Continued From Page 1

C.N.R. meant dealing with an almost bankrupt corporation which could pay no damages. That was the situation only a short time ago."

The Government was told that it would require $1,600,000 more to complete the line, this figure being based on the increased cost of rails, yet so far as he could see the rail shortage was not the only trouble confronting the company, for it had neglected to go ahead with any other projects that naturally accompanied railway construction. When he had been made Minister of Railways, Mr. Oliver said, he had been again informed by railway officials that the company had no finances and that it could not get rails.

As to the argument about the finances, Mr. Oliver recounted his statement to the officials in the Government offices here that before they asked for more money they had better give an account of what they had done with the money already given them. Referring to the rails excuse, he called it a deliberate untruth, because it had been only recently shown that there were plenty of them. Last month, he said, forty carloads of rails had been secured at the rate of $33 a ton.

Federal Action Logical

The Premier felt that the Federal Government had taken the logical course in taking over the C.N.R. The demands for continued financial aid had compelled this action, and while the situation had not given evidence of improvement on the Island, he had taken the stand that it was inadvisable to bring any action, as it would be a case of a child going to law with its father. "I think it is wise during times of stress like these to avoid making trouble with the Dominion Government," he said, "and I think I acted wisely in relying on our Federal statesmen and Parliament."

Mr. Oliver told of his appearance before the Meredith Commission in Toronto. He thought a grievous wrong had been done to the residents of Victoria by the tendency to neglect that part of the C.N.R. line proposed for the Island. "In my opinion," he said, "there is no more glaring breach of faith and absolute wrongdoing than in this case."

He went on to speak of the interviews he had with Hon. Dr. I. D. Reid, Minister of Railways, and commended Dr. S. F. Tolmie and Mr. McIntosh for their co-operation and assistance. "Whatever credit is due in what we did," he said, "I must divide it equally with Dr. Tolmie and Mr. McIntosh." The attitude of Dr. Reid had been uncertain at first, but he had gradually been swung around until he appeared favorable to finishing the Island project on condition that rails were available. Mr. Oliver had heard of there being a large quantity of steel rails destined for Russia which had been unloaded along the line of the C.P.R. as a result of the unsettled conditions across the water. He had immediately communicated with one of the Provincial officials and learned that there were sufficient rails to make 900 miles of track.

Fights for Russian Rails

"I pointed out that it would be poor economy to haul those rails back eastward and that if they were used in British Columbia it would save two freights," said the Premier. "I explained that the British authorities needed something more than wheat; that they needed spruce for airplanes, lumber for other construction work and ships. I showed them how the C.N.R. line tapped an unlimited supply of spruce and fir. Then I told them that it was bad policy to allow the people to transfer their 'soreness' with the railway to the Government. This was a time to preserve harmony, and I stated that the people out here felt they had not been getting fair treatment, in spite of its splendid record in the war. I am not here passing criticism on the Federal ministers. They have so many demands placed upon them that it would be unfair to do that. But I can say that I did my very best to get a pledge from the Federal Government that at least some of those Russian rails would be placed here. I don't propose to cease my efforts until there are results. I believe the Federal Government is in earnest, and I believe the rails can be got for Vancouver Island. There is this argument about it: A man can haul a load of wheat fifty or sixty miles, but a man can't do that with logs."

The Premier quoted figures to show that one section of the Nitinat Lake district was capable of producing 90,000,000 feet, board measurement. Thirty or thirty-five miles of steel rails would carry the road into the heart of this vast timber stand.

Cut Songhees Reserve Cost

A few minutes were devoted to a discussion of the work now in progress on the former Songhees Reserve area. He said that through the cooperation of the city, the Provincial Government had been able to carry on work at a cost of nearly half what it used to be, although higher wages were being paid for labor.

Referring to the Johnson Street bridge, he said that if the Board of Railway Commissioners was right in its claim that the present bridge was outside its jurisdiction, then the bridge was the only piece of track in the whole of Canada that was not within its control. He urged that the interested parties in the dispute should make another effort to get together in the formulation of some mutually satisfactory agreement. He expressed regret at the E. & N. Railway's action in appealing from the Railway Board's decision relative to pedestrian rights on the Inner Harbor bridge, and while he claimed the city had taken the only course in preparing to defend itself, it meant a waste of time and money without arriving at a solution of the problem.

At the conclusion of his address a vote of thanks to the Premier was moved and seconded by Messrs. J. L. Beckwith and W. H. P. Sweeney.

ADMIRALTY CARRIES OUT EXTENSIVE WORK

LONDON, June 13.—An example of the routine work carried out by the British Admiralty during the three and a half years of war is shown in the fact that, despite Germany's submarines, seventeen million passengers have been conducted in military transports backwards and forwards to the various theatres of war.

The number of animals conveyed exceeds two million. The number of vehicles carried was more than four hundred thousand, and the quantity of stores transported was in excess of 35,000,000 tons.

The British Admiralty has carried nearly a million tons of stores for the Italian Government, and also about three and a half million tons of coal for Italy in requisitioned steamers.

ENEMY MUST DRAW MEN FROM RUSSIA

LONDON, June 13.—Germany is about to withdraw the bulk of her troops now in Russia for service on the western front, according to a statement in Maxim Gorky's newspaper, the Petrograd Novaia Zhizn, quoted by The Daily News' correspondent at Stockholm. The Novaia Zhizn claims to give the text of a dispatch sent by General Falkenhayn, former chief of the German general staff, which it says was intercepted, in which General Falkenhayn declares that the battles on the western front are critical and decisive, but that in order to insure definite victory and the end of the war the concentration of enormous forces will be necessary.

"In view of the fact that our troops on the Russian and Ukraine fronts have attained their objects," the dispatch continues, "and are now resting, the Emperor has instructed the general staff to take measures for the transportation to France of the majority of the German forces in White Russia, Ukraine and Great Russia, leaving there only small detachments necessary to maintain order."

The transportation, according to the quoted message, was to be effected within seven days.

Enemy Plot Suspected

PUGHKEEPSIE, N. Y., June 13.—Five explosions occurring in quick succession today in the furnaces of the Price Fire and Waterproofing Co. put the factory out of commission. That the explosions were the result of a plot to damage the plant so that it could not fill contracts with the Government for making gas mask material is the belief of William B. Price, general manager.

Purchases Australian Wool

LONDON, June 13.—"It is announced that the Imperial Government has purchased the whole of the Australian wool clip for the period of the war, and for one year afterwards," says a dispatch to the Exchange Telegraph from Melbourne. "The first two clips involve the sum of £100,000,000. It is the largest wool transaction in the history of the world, and insures the commercial and financial stability of Australia."

Use Cocoanut Oil For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with.

Don't use prepared shampoos or anything else, that contains too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulsified cocoanut oil (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, and this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy, and easy to manage.

You can get mulsified cocoanut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

MR. ROBERT GRASSIE BURIED AT SOMENOS

SOMENOS, June 13.—Mr. Robert Grassie, of Duncan, who died recently, was buried Tuesday afternoon from the family residence here. Services were conducted at St. Andrew's Presbyterian Church by the Rev. A. F. Munro.

Deceased was born at Grassie's Corner, Ontario, and came to Duncan in 1890, where he worked for some time in a shop on John Street and was the first blacksmith in the district. Besides a wife, he leaves three married daughters, Mrs. Thomas Pitts, Mrs. A. H. Peterson, Mrs. D. R. Hattie; two sons, Charles, who was in business with his father, and William, in Mexico. There are also several grandchildren. The pallbearers were Mr. C. H. Dickie, Mr. John Evans, Mr. W. Paterson, Mr. G. Lewis, Mr. H. S. Law and Mr. C. Dobson.

DUNCAN NEWS

At a meeting of the Women's Institute held on Tuesday Miss Stewart, of the Victoria Public Library, gave a most interesting talk on "Conservation," dealing with the conservation of life, telling how the French Government is assisting mothers in the care of children, and the conservation of food. Miss Stewart also gave a short address on different styles of books women are reading. The resolution from the Local Council of Women condemning the cruelty practised on animals trained to take part in performances was endorsed, as was also a resolution with regard to refraining from the serving of bread or wheat flour in any form at gatherings and entertainments.

The local Chapter of the Daughters of the Empire are going to assist the deputy registrar on June 22.

Five dollars was sent to the Halifax Institute for the Blind. Each member is being asked to make and contribute an article for the Institute stall at the Blue Cross fete next month.

At a meeting of the directors of the Cowichan Agricultural Society held on Monday last it was decided to hold the annual Fall fair. The financial outlook is more promising than it was last year. Final arrangements were made to entertain the delegates of the Holstein-Friesian Association in Duncan on June 20. They will be taken by motor car during the afternoon to visit several of the leading breeders' farms of the district. They will dine at 7:30 at the Tzouhalem Hotel, after which Dr. Tolmie will deliver an address, following a musical programme.

AMPLE PROVISION FOR REGISTRATION

Besides Public Booths, Registrar Gaunce Has Arranged for Many Business Places to Take Care of Employees.

Despite the tremendous amount of work involved in providing for the registration of man and woman power of this district under the Dominion-wide registration plan which will be carried into effect on Saturday, the 22nd inst., Registrar W. G. Gaunce is rapidly getting all arrangements made and when the registration day arrives there will be ample provision for handling the work.

As every individual, without exception, 16 years or over, male and female, citizen and alien, must register, the task of providing places of registration and securing assistance to carry the work into effect has been a heavy one, but Mr. Gaunce states he is receiving the heartiest co-operation of everyone.

In addition to the eighty-eight public booths spread over every section of the city, which will be open during the time for registration, from 7 a.m. to 10 p.m., he has arranged with a large number of firms, stores, etc., to have facilities present at their premises for the registration of those employed therein. In this way many hundreds of persons will be speedily and conveniently registered without the necessity of attending at a public booth, though, it is stated, neither the employer nor the registrar can insist that anyone shall not register at any of the public registration places should he or she wish to do so. But the advantage of such extra facilities will be apparent, as they will be much more convenient to many and will reduce the pressure at the public registration places, lessen the number of assistants that would otherwise have to be provided, and generally facilitate the work of registration.

The public places arranged for are as follows:

Public Registration Booths

IMMODESTY IN DRESS DISCUSSED BY WOMEN

Delegates to W.C.T.U. Convention Criticize Prevailing Extremes in Fashions—Senators Censured for Action.

In view of criticisms recently passed upon the immodesty of the present style of women's dress and the evil effect it is said to exert on the morals of young people, the Provincial W.C.T.U. in convention yesterday adopted a resolution urging its members "to refrain from wearing dresses too short and necks of waists too low." One member strongly protested against the action of men laying the blame for nearly all of the social crimes committed upon the dress of women, stating that if they were above such evil thoughts and truly desired to be the protectors of womanhood there would be no need for such criticisms.

Miss Wark, the local Social Service worker, approved of the resolution, saying, "If the wearers of some of the frocks which reveal so much of their forms could hear the remarks of masculine onlookers as they pass on the streets, they would blush with shame." Others in the meeting expressed similar opinions and opinion was general that "women could do no better than by following the example of their grandmothers and observe the happy medium."

Realizing fully the important part that food conservation plays in the winning of the war, the members pledged themselves to comply with the requests of the Food Controller and do their utmost to conserve food, especially those products required for the men of the Allied armies. Another resolution required the members of the W.C.T.U. to refrain from using wool in the knitting of sweaters and other articles for home use owing to the increasing scarcity of wool required for the needs of the army.

Appreciate "World's" Stand

A resolution putting on record the appreciation of W.C.T.U. members of the continued support of The Vancouver World accorded the cause of prohibition and national reforms passed unanimously. The convention also resolved to co-operate with the People's Prohibition Association of the Province in securing prohibition of the manufacture of tonic wines and proprietary medicines. Another motion expressed the determination of the Union to urge upon the Government the immediate necessity of segregation, treatment and training for the feeble-minded, thus disposing of one of the greatest menaces of the community. The meeting also decided to inquire of the Dominion Union as to whether Miss Foreman, the Dominion Foreign Worker, would be available for work in British Columbia this year.

Recent Action of Senate

The Union expressed strong disapproval and much disappointment in the action of the Dominion Senate in refusing to accede to the repeated requests of the womanhood of the country for greater moral protection for the young womanhood of Canada by rejecting the bill passed by the Commons which would permit raising the age of consent for girls from 16 to 18 years. The secretary was instructed to send a copy of the resolution and a forcible letter of protest to each Senator.

The convention also passed a resolution asking the Government to enact a law whereby all cases of venereal disease will be made reportable, and further that the W.C.T.U. urge upon the Government the necessity of compulsory examination of members of either sex contemplating marriage. Another motion asked the Government to look into the matter of the Sunday laws, with a view to stricter compliance with them and a proper enforcement of the Lord's Day Act.

W.C.T.U. Military Secretary

A resolution sponsored by Mrs. J. A. Gillespie, of Vancouver, and seconded by Mrs. McPhee, also of that city, provided for the establishment of a separate fund for maintaining a woman secretary for Military Y. M. C. A. work at the front, provided that the said worker be a British Columbia woman. This fund will be conducted in addition to the regular "cocoa fund," of which the Union is justly proud. By unanimous assent, the convention decided to change the name of the department known as "Soldiers and Volunteers" to that of "Militia and War Work."

Dr. Ernest Hall addressed the afternoon meeting briefly, asking the co-operation of the Union in fighting the spread of venereal diseases, the treatment of which, he said, was a case of life and death. He stated that freedom from these diseases was greater among the Canadian boys in France than among the average man out of uniform. He boldly sounded a warning, calling upon the women to wage one of the holiest wars on earth, that of fighting the strongest enemy of the race, a disease even worse than typhiod and tuberculosis combined. He urged women to protect themselves, their children and their Empire, since the men had refused to help in cleaning the community for the boys returning from the war.

A round table conference concluded the afternoon session, this feature being conducted by the Vice-President, Mrs. J. A. Gillespie, of Vancouver.

Much routine business was transacted at the morning session, including a number of reports and a memorial service conducted by Mrs. E. Nicholls. Luncheon was served in the church dining-room by the ladies of the Methodist churches.

SYNOPSIS OF COAL MINING REGULATIONS

COAL mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of the Province of British Columbia, may be leased for a term of 21 years, renewal for a further term of 21 years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated such returns should be furnished at least once a year.

The lease will include the coal mining rights only, rescinded by Chap. 27 of 4-5 George V. assented to 12th June, 1914.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of Interior.

TO BUILD VESSELS IN PRINCE RUPERT DOCK

Announcement Made That Eight Big Steel Vessels Are to Be Constructed at Northern Port.

VANCOUVER, B.C., June 13.—According to Mr. W. P. Hinton, vice-president and general manager of the Grand Trunk Pacific Railway Co., work will commence at an early date at Prince Rupert on the construction of at least eight steel ships of 8,500 tons each. The vessels will be built by an American company, using the great drydock and plant at that port. Mr. Hinton will be in Victoria Saturday.

CREW OF ROOSEVELT COMMENDED FOR WORK

U.S. Fisheries Commission Sends Congratulations to Patrol Vessel—Saved 701 Lives.

WASHINGTON, June 13. — Commendation of Commander Hans Bierd and the crew of the steamer Roosevelt for saving 701 persons and the ice-bound Alaskan merchant fleet in Bering Sea was telegraphed to Commander Bierd today by Fisheries Commissioner H. M. Smith.

A brief report on the Roosevelt's work said the Roosevelt was forced to cut its way at times through 16 feet of ice. When found by the Roosevelt and towed to open water the ship St. Nicholas was being crushed by the ice and would have been a total loss in 12 hours.

There were 300 persons on board, including 115 from the steamer Tacoma, which was sunk. Twenty-one other persons from the Tacoma who had taken refuge on the ice were picked up by the Roosevelt. The Centennial, with 160 persons, and the Star of Chile, with 220, also were taken to safety.

MONTEAGLE WILL REFIT AT ESQUIMALT

C.P.O.S. Will Arrive From Yokohama This Morning With Many Passengers

The C.P.O.S. liner Monteagle will be in port early this morning from the Orient, bringing a large cargo and many passengers. After the discharge of her cargo in Vancouver the vessel will go to Esquimalt, where she will enter the drydock for overhaul. She is expected to return here some time in the course of the next week.

Is Champion Fish Boat

VANCOUVER, June 13. — The steamer New England, Captain Scott, of the New England Fish Company, has arrived with 75,000 pounds of halibut and 15,000 pounds of grey cod. Manager Hager states that she has landed more fish this year than any other vessel engaged in the North Pacific halibut business. The New England has been fishing off the Aleutian Islands and delivering her cargoes at Ketchikan, and this is the first catch she has brought to Vancouver for some months.

Ferry Dispute Settled

VANCOUVER, June 13.—Secretary Goodlad, of the Canadian Merchant Service Guild, was successful in obtaining a settlement of the dispute in regard to wages and working conditions of masters and mates on the North Vancouver ferries this morning. The ferries have agreed to pay the Guild scale, and form the seventeenth company to sign up with the association. The agreement, of course, is subject to the final finding of the board of conciliation which was applied for yesterday to settle the dispute between the Guild and some of the big steamship companies which have refused to deal with the Guild. J. H. McVety has been invited to act as the representative of the Guild on the conciliation board, and has accepted.

Launching at Quebec

QUEBEC, June 13. — The War Senio, a 250-foot wooden vessel, was successfully launched this morning at Quintlan & Robertson's yards, this city.

Building-up for the Spring Attack at the Front is a good deal like putting the body in condition for an invasion of the germs of grip, pneumonia or "Spring fever" here at home.

At this time of the year most people suffer from a condition often called Spring Fever. They feel tired, worn out, before the day is half thru. They may have frequent headaches and sometimes "pimply" or pale skin and white lips. The reason for this is that during the wintertime, shut up within doors, eating too much meat and too little green vegetables, one heaps fuel into the system which is not burned up and the clinkers remain to poison the system — a clogging up of the circulation —with inactive liver and kidneys. Time to put your house in order.

For an invigorating tonic which will clarify the blood, put new life in the body, sparkle to the eyes, and a wholesome skin, nothing does so well as a glyceric herb extract made from Golden Seal root, Blood and Stone root, Oregon grape root and Wild Cherry bark. This can be had in convenient, ready-to-use tablet form at all drug stores, fifty cents, and has been sold for the past fifty years as Dr. Pierce's Golden Medical Discovery. By reason of the nerves feeding on the blood, when the blood is pure the nerves feel the effect, and neuralgia or other nerve pains disappear because such pain is the cry of the starved nerves for food. When suffering from backache, frequent or scanty urine, rheumatic pains here or there, or that constant tired feeling, the simple way to overcome these disorders is merely to obtain Dr. Pierce's Anuric from your druggist. In tablets, fifty cents.

BOILER TROUBLE WILL DELAY WAR YUKON

Accident on Trial Trip Proves More Serious Than Was Expected—Boilers Will Be Replaced.

The War Yukon is to lose the honor of being the first vessel of the I. M. B. wooden ship programme to make an ocean voyage, a thorough inspection of the vessel's water-tube boilers showing that the damage done to the crown sheets and tubes at the time of the trial trip had been more extensive than was at first expected. As a consequence she will be delayed for a few weeks, and in the meantime several other vessels of the programme which are nearly ready for sea will have been put into commercial service.

Sticking Valve Did Damage

Officials of the I. M. B. yesterday stated that after the speed and other trials had been completed on June 1, and while the vessel was on her way back to harbor, a steam pressure test was made. In the course of this trial the valve which controls one of the water-level guages became jammed, with the result that, while ample water was indicated, the heavy firing which was being done rapidly evaporated the comparatively small amount of water which this type of apparatus uses. The automatic pump was not in use at the time and the auxiliary feed was only being used as the indicators required. The other boiler is claimed to be unaffected.

Crew Felt Uneasy

According to statements by officials of the I. M. B. the condition of the damaged boiler is such that a couple of weeks' work will restore it to service condition, and the pair of them have been removed for replacement, chiefly to allay apprehensions which have been expressed by the crew of the vessel.

It is admitted that their condition is not good enough to pass Lloyd's inspection, but it is claimed that by replacing them with boilers originally destined for other vessels and making the repairs on shore there will be a great saving of time and the War Yukon will be got to sea earlier than if the repairs were made on board. It is stated that the boilers will be used on another vessel as soon as they have been repaired.

TRANSLATED FROM HUNLAND TO HEAVEN

Canadian Officers Now in Holland, Recently Prisoners of War in Germany, Thank Red Cross.

The following is a resolution passed by some Canadian officers who are now interned in Holland after having been imprisoned in Germany for three years. The telegram was received at local Red Cross headquarters last evening from Dominion headquarters, Toronto:

"Resolved that we, the Canadian officers recently translated from Hunland to Heaven, deem it our duty and feel infinite pleasure in placing on record our most sincere thanks and gratitude for the never-failing efforts and the far-reaching benefits of the Canadian Red Cross Society towards the amelioration of our unfortunate condition during the past three years.

BOILERMAKERS STRIKE

About 100 boilermakers engaged in the Victoria Machinery Depot went out on strike yesterday noon. Manager R. R. Neild stated last night that he hoped a settlement would be arrived at some time today. Mr. John H. Carmichael, organizer for the boilermakers, will arrive from Vancouver this afternoon.

The boilermakers were one of the unions that remained outside the agreement reached between labor and employers a couple of weeks ago when Senator G. D. Robertson was on the Coast. They were working under the reservation that they would not bind themselves down to any specified rate until August 1, when the International decides on a universal scale.

Just what the demands of the men are has not been definitely stated, according to Mr. Neild, who says the strike was called without notice. The grievance is said to concern the men working on night shift, who are getting eight hours' pay for seven and a half hours' work.

PRICES GENERALLY TAKE UPWARD TURN

Active Demand for U.S. Steel Gives Strength to Most of List—Rails and Shippings Are Slow.

NEW YORK, June 13.—A gradual hardening of prices, subject to moderate reactions, accompanied today's trading on the stock exchange. The demand for United States Steel, which made a net gain of three points, infused strength into the entire list toward the close, rails and shippings alone holding back. Reading moved contrary to the general trend, forfeiting practically all its 1¼ point gain.

Tobaccos also were extremely variable on the sharp setback to Sumatra in the forenoon, that stock later regaining half of its 4-point decline.

Sales amounted to 500,000 shares.

Lire on remittances to Italy recovered sharply on announcement of the prohibition of arbitrage operations in that form of exchange

Liberty bonds were irregular, Paris 6's again forfeiting a large fraction. Total sales, par value, $4,675,000. Old U. S. bonds were unchanged on call.
